University of Toronto,
Scarborough Campus, Ontario, Canada
www.utsc.utoronto.ca

Fast facts
- Language of instruction: English
- Number of students enrolled: 12,262
- Students from 81 different countries
- Academic year: September - May
- Autumn Semester Equivalent: September – December
- Spring Semester Equivalent: January – May

Location
The campus is a 300-acre site located in the Toronto suburb of Scarborough in the Highland Creek Valley, one of Toronto’s most spectacular natural settings.

The campus is next to popular natural landmarks in Toronto’s greenest area, and is situated in one of Toronto’s most diverse and multicultural neighbourhoods. It is a 45-min to one hour journey from UT scarborough campus to UT St George campus and downtown Toronto.

The city of Toronto is the cultural, entertainment and financial capital of Canada. It is said that more than half of the people living in Toronto were not born in Canada. This has helped to make it one of North America’s most culturally diverse and exciting cities, which is reflected in its internationally renowned restaurants and social and cultural resources.

Things to do
Toronto gives you the opportunity to visit world-famous landmarks including the CN Tower, the world’s tallest freestanding tower in the world, and Niagara Falls. Excellent sports and recreation facilities are available on campus and many students take advantage of Toronto’s relatively long winters to enjoy one or more winter sports such as skating, skiing, etc.

There are many things to do around the Scarborough area including visiting the Toronto Zoo (the largest in Canada), going to swim at Bluffers Park Beach and Rough Beach and the world class swimming facilities that were built for the PanAm games in 2015. There are also several parks in and close to Scarborough with beautiful scenery and many miles of nature and walking trails.

Travel Opportunities
From Toronto you can travel to Montreal and Quebec City by bus or train. Toronto also enjoys excellent rail and bus connections with all major North American cities, bringing New York within easy reach. It is an excellent base for travelling around Canada and the USA.

Climate
Toronto’s climate ranges from near tropical in the summer (up to 35°C), to occasional lows of −20°C in the winter, with an average winter temperature of −4.8°C. The first snowfall in Toronto usually happens toward the end of November, but it is very light and usually melts away the same day. Heavier snowfalls usually happen between December and February, although it does not snow every day. Snow season usually finishes by the end of March.

Finance 2017/18
Bursaries from the University of Nottingham available for those accepted to study abroad at Toronto:
- Global Travel Bursary (means-tested): £750 dependent on household income for students beginning their studies in 2016. Students who started their studies before 2016 should see the finance webpage, as the award criteria differs (available to students classified as Home Students for fees purposes and accepted to study abroad as part of the University-wide exchange programme).
