Study abroad
Peer adviser
Kathryn Bancroft

www.nottingham.ac.uk/studyabroad
My name is Kathryn and I am a third year student studying English. In the spring semester of my second year, I studied abroad at The University of Connecticut, which is located in the north-eastern part of the U.S.A.

Studying abroad is one of the most exciting experiences imaginable. I enjoyed learning in a new educational system and taking courses which were completely different to the ones at home. Living on campus meant I could get involved with lots activities, from competing in a dodge ball tournament to seeing the New York Yankees play baseball. Moving to a new country also gave me the opportunity to make new friendships which will last much longer than my time spent abroad!

Going abroad gives you the confidence to meet new people, try new things and think in new ways. It widens your horizons and makes you realise there is a whole world out there to discover.
