Study abroad opportunities 2016/17

School of Medicine

Elective abroad
The elective takes place in the final-year. You would organise this, currently a seven week period, yourself during the fourth year and can travel to any country the Foreign and Commonwealth Office deems safe. Students also have the opportunity to join the Kenyan Orphan Project during holiday periods.

Contact
Jane Dewse jane.dewse@nottingham.ac.uk
Office hours: Tues 9.30am - 2.30pm
Thurs and Fri 8.30am - 4.30pm

Eligibility
Eligible candidates must be registered on the A100 BMedSci/BMBS (in year three) or A300 Graduate Entry Medicine (GEM) (in year two) should be in the upper 2 quartiles for examinations to date and should not have failed any examinations.

Eligible candidates will be invited to submit a one page A4 CV and a one page A4 statement summarising why they wish to participate in the exchange.

The exchange will occur in the Clinical Phase 2 (CP2) part of the course.

Placements abroad
Up to four weeks of Animal Husbandry Extra Mural Studies and up to 12 weeks of Clinical Extra Mural Studies can be taken overseas, providing strict criteria are met regarding placement selection and host suitability. Placements normally take place during holiday periods and must be approved by the School in advance.

Research project abroad
It is possible to undertake your third-year research project abroad, providing strict criteria are met regarding project selection and host suitability. Placements must be approved by the School in advance.
