Welcome to our Science and Technology Fair

It’s great to see you at our Science and Technology Fair. As scientists and technologists, your skills are in high demand and we are excited to announce that more than 50 employers will be making their way to University Park to meet you. Here are some key points to help you make the most of the fair:

- Watch out for the blue mortar board symbol in this guide – on these stands you will be able to chat to Nottingham graduates who are happy to be back on campus and are keen to meet you, whatever subject you are studying.
- Want help with job hunting? Attend one or all of our workshops below to help you ace the recruitment process. Register on My Career to guarantee your place nottingham.ac.uk/careers/login.aspx.
- To get your CV reviewed, speak to a member of the Careers team in the entrance hall.

And finally, keep in touch. You can book an appointment with us at nottingham.ac.uk/careers/appointments or ask our experts a question on Facebook or Twitter. If you have a burning question, it’s a great way to get a quick answer.

We hope you enjoy the day!

Welcome to our Science and Technology Fair

Job Hunting Workshops

We’re running a programme of 30-minute employer workshops during the day to help you navigate all stages of the recruitment process. You can also come to see our team at any point to talk to us and pick up careers resources.

CVs with Rolls-Royce

Syndicate Room 1

Creating a CV can often be the first step when it comes to applying for opportunities. This session will provide hints and tips to help you craft a successful CV and provide an opportunity to ask Rolls-Royce what helps make a stand-out candidate.

1.30pm

Covering letters with Impression

Syndicate Room 2

This Nottingham-based digital agency will talk you through the dos and don’ts of covering letters; what to include and how to tailor content to the job you’re applying to. There will also be hints and tips on how Impression identify successful covering letters.

3pm

Application forms with PwC

Syndicate Room 1

Application forms help shape an employer’s first impression of you, and determine whether you get through to the next round of selection. This session will help you adapt your answers to the role you are applying for, and provide techniques to help you stand out in PwC’s selection process.

2pm

Video interviews with MyUnidays

Syndicate Room 2

Join this Nottingham-based online discount company to hear the basics of what to expect from their recruitment process, get hints to help you succeed at an interview, and ask the questions that matter to you.

2.30pm

The recruitment process with Romax

Syndicate Room 1

Romax will give you the 360 on their recruitment process, including how they use psychometric testing, competency interviews and what the company looks for in its search for talent.

3.30pm

Interviews with Blenheim Chalcot

Syndicate Room 2

Blenheim Chalcot, a venture builder for digital technology start-ups, will explain what to expect from their interview process and how to approach it. They will also provide insight into what employers look for in the responses from candidates during interviews.

Accenture

**Subjects recruiting from:** All disciplines for strategy, consulting, client delivery, analytics, software engineering, technology architecture, information security and human resources

**Job areas recruiting to:** Strategy, consulting, client delivery, analytics, software engineering, technology architecture, information security and human resources

**Job location(s):** Nationwide

**Number of graduate vacancies 2018/19:** Numerous

**Internships and placements 2018/19:** Summer vacation scheme programme places and year-long placements in consulting and technology

**Ask me about:** Our different exciting opportunities within technology

Accenture is a leading global professional services company, providing a broad range of services and solutions in strategy, consulting, digital, technology and operations. Combining unmatched experience and specialized skills across more than 40 industries and all business functions, Accenture drives innovation to improve the way the world works and lives.

Agenda Life Sciences

**Subjects recruiting from:** Animal-related disciplines

**Job areas recruiting to:** Life science animal technicians

**Job location(s):** Nationwide

**Number of graduate vacancies 2018/19:** Numerous

**Ask me about:** A career working with animals and the opportunity to travel and work throughout the UK

Agenda Life Sciences employs animal technicians of all levels and we are the only company that provides staff with a welfare first programme that cares for the people who care for the research animals.

All of our animal technicians, whether just starting out or already qualified, are provided with the opportunity to further develop their careers with full training and development support.

Army

**Subjects recruiting from:** All disciplines

**Job areas recruiting to:** Defence engineering, IT and communications

**Job location(s):** Worldwide

**Number of graduate vacancies 2018/19:** 500+

**Ask me about:** The world-class opportunities, top qualifications and career progression available to an army officer

Become an army officer and you'll get much more from life than you would with a civilian career – you'll have the opportunity to develop your skills somewhere it really matters, alongside a team like family to you. It doesn't matter what you choose to do but you can specialise in science or technology, among many other areas.

From the moment you join you'll be set on a path of constant improvement with access to world-class opportunities and a chance to gain top qualifications.

You'll see the world, realise your potential and make people proud. And, above all, you'll build bonds that never break.

Find where you belong. Become an army officer.

Ashfield

**Subjects recruiting from:** Biomedical science and food life sciences

**Job areas recruiting to:** Medical sales

**Job location(s):** Nationwide

**Number of graduate vacancies 2018/19:** 250

**Internships and placements 2018/19:** Vacation internship, graduate internship and year-long placements

**Ask me about:** Our roles in medical sales

Ashfield are looking for bright and ambitious graduates who are eager to join the pharmaceutical industry.

As a graduate medical sales representative you will be required to be highly motivated and build partnerships with healthcare professionals, demonstrating the value of your products.

Bakkavor

**Subjects recruiting from:** Food science and nutrition

**Job areas recruiting to:** Technical, product development, manufacturing, human resources, finance, marketing and commercial

**Job location(s):** Nationwide

**Number of graduate vacancies 2018/19:** 10

**Internships and placements 2018/19:** 10 graduate internships and year-long placements

**Ask me about:** Roles particularly suited for PhD students: All schemes

Bakkavor is the leading provider of fresh prepared foods in the UK, with a fast-developing international presence in the United States and China. In total, we have 19,000 employees worldwide.

In the UK, we are number one across all four categories within fresh prepared foods: meals, salads, desserts, pizza and bread.

Our customers include some of the UK’s best known grocery retailers which sell our products to consumers under their respective retailer brands.

bakkavor.com
Ask me about: Our recruitment process, working with start-ups and building businesses.

Blenheim Chalcot is a venture builder which has built over 30 digital technology start-ups across a variety of sectors, including IT services and outsourcing, FinTech, EdTech, travel, software, sport and media.

Today, our companies have sales of over £300m and employ in excess of 3,000 people. We continue to create and build businesses in these sectors, often from the ground up.

Ask me about: Hints and tips on applying for roles with us.

From our internships to graduate programmes, we’ve got opportunities to suit everyone’s interests and ambitions. From a variety of business areas such as global brands, e-commerce, finance, human resources, buying and many more, the opportunities are limitless.

By joining one of our Boots 360 pathways, you’ll get to explore the global health and wellbeing industry, and see what our world has to offer – whichever way you look at it.

Ask me about: The result is a data-driven, tech-enabled business on a mission to simplify finance – taking on great responsibility, you’ll enjoy so much scope to shape our industry and bring the next big ideas to life. At the forefront of innovation, you can build a truly global career.

Bravura Solutions Limited is a leading provider of software solutions for the wealth management, life insurance and funds administration industries.

We have launched our 2017 graduate programme aimed at computer science undergraduates or graduates interested in a career in financial technology.

**FACTSET**

Subjects recruiting from: Finance, economics, maths, physics, chemistry, computer science and software engineering

Job areas recruiting to: Client solutions architects and software engineers

Job location(s): London

Number of graduate vacancies 2018/19: 60

Internships and placements 2018/19: 14 vacation internships

Roles particularly suited for PhD students: Fixed income consultant

Ask me about: Our graduate recruitment programme

FactSet is a leading provider of financial data and analytics applications. Our products are used by analysts, portfolio managers, researchers and investment bankers at major financial institutions throughout the world. Our business is built on the creative use of technology and an unwavering dedication to client service.

FactSet recruits graduates and summer interns to our software engineering roles and client solutions associate roles to keep up with the continually increasing demands of the investment industry.

**FDM**

Subjects recruiting from: STEM disciplines, social sciences and business

Job areas recruiting to: IT and digital

Job location(s): Nationwide

Number of graduate vacancies 2018/19: 1,000

Internships and placements 2018/19: 12 graduate internships and year-long placements

Ask me about: Transferable skills from your degree as you don't need an IT background to work in this sector

FDM is the UK’s leading IT graduate employer. Our clients are some of the most prestigious in the UK and we’re currently looking for our next generation of business and IT consultants.

As an FDM consultant, you will be trained to industry standards in one of our three areas: client solutions, technology and client service. When you join Ford, your journey begins. You become part of a team that is already leading the way, with ingenious solutions and attainable products – and always ready to go further.

Ford is a stable and growing company with Scandinavian roots, listed among Best Companies to Work for by Great Place To Work.

Based in Nottingham, we have a friendly atmosphere creating a welcoming environment, with a good mix of structure and flexibility to promote healthy work-life balance.

With a high focus on teamwork, cooperation and collaboration, FDM use modern technology and customer-focused agile methodologies to deliver industry-leading products.

**IFS**

Subjects recruiting from: Mathematics, computer science and physics

Job areas recruiting to: Software developers

Job location(s): Nottingham

Internships and placements 2018/19: Two graduate internships

Ask me about: MSci – a specialist group focusing on mobile and scheduling technologies, optimisation and Azure deployments

IFS is a stable and growing company with Scandinavian roots, listed among Best Companies to Work for by Great Place To Work.

Based in Nottingham, we have a friendly atmosphere creating a welcoming environment, with a good mix of structure and flexibility to promote healthy work-life balance.

With a high focus on teamwork, cooperation and collaboration, IFS use modern technology and customer-focused agile methodologies to deliver industry-leading products.

**Impression**

Subjects recruiting from: All disciplines

Job areas recruiting to: All service areas

Internships and placements 2018/19: 105 graduate internships and year-long placements

Ask me about: Graduate schemes and internships in a fast-moving digital marketing and web agency in Nottingham

Impression is a Nottingham based award-winning digital marketing agency that specialises in data-driven, results-focused strategies that help businesses to grow online.

We work with a range of businesses, both B2B and B2C, lead generation and e-commerce, through a range of industries and sectors.

Our team is made up of over 30 creative and innovative marketers, designers and web developers. As we take on new clients each month, we are looking for motivated and ambitious individuals to help us become one of the best digital agencies in Europe.

**Interoute**

Subjects recruiting from: STEM disciplines

Job areas recruiting to: Cloud computing and networks

Job location(s): London, Nottingham and Bracknell

Number of graduate vacancies 2018/19: 30 graduate internships, graduate internships and year-long placements

Ask me about: IGNITION: Interoute’s graduate programme

Interoute Virtual Data Centre (VDC) is a powerful IaaS/Cloud Computing platform sold via Interoute’s CloudStore: http://cloudstore.interoute.com.

Cloud Computing/IAAS is the fastest growing area of the IT sector and is breaking the rules. Interoute will be the biggest non-US player and with continuing expansion in the US, we also take on the biggest players such as Amazon AWS on their home turf.

Horizon Centre for Doctoral Training

Subjects recruiting from: Arts, computer science, English, engineering, business, psychology, sociology and geography
Job areas recruiting to: PhD study
Job location(s): Nottingham
Number of graduate vacancies 2018/19: 12

Ask me about: PhD study starting in September 2018 with a focus on digital identities and personal data

The technologies of digital identity and personal data raise some of the most profound technical and social challenges facing our digital society today. Our digital identities will define the interfaces to the future services that we will use for entertainment, well-being, government, transport, energy, retail and finance. They will be constructed from our personal data, digital records that capture who we are and the histories of our digital, and increasingly our physical and social, interactions.

We are at an exciting moment in time where there are a vast range of opportunities for research in personal data.

cdt.horizon.ac.uk

Doctoral Training Partnership (DTP) provides PhD students with a world-class training programme in biotechnology and biological sciences. In addition to their research project, all students enrol on a common programme of training for the first six months of PhD study, split equally into high-level modular training and laboratory rotations, and take part in a three-month professional internship placement.

A number of schools are involved in the delivery of this Doctoral Training Partnership Programme: biosciences, chemistry, bioengineering, life sciences mathematical sciences, medicine, pharmacy, psychology, and veterinary medicine and science.

**Knowledge Transfer Programme (KTP)**

Subjects recruiting from:
- Science disciplines
- Job location(s): Nationwide
- Number of graduate vacancies 2018/19: 400
- Internships and placements 2018/19: 50-200 year-long placements
- Roles particularly suited for PhD students: Research and development roles
- Ask me about: How KTP associates are given a budget dedicated for personal training and development

Want to fast-track your career with one of Europe’s biggest graduate recruiters? Knowledge Transfer Partnerships are a three-way collaboration between a graduate or postgraduate (KTP associate), a company and a university. A KTP associate is employed by the university to work full-time in a business, on a strategic project (lasting anywhere from one to three years) with significant commercial impact, in collaboration with the university. So, if you’re an ambitious graduate looking to put your degree into action in the real world, then a KTP is what you’re looking for.

- Internships and placements 2018/19: 20
- Ask me about: The challenges of running a truly global e-commerce platform

viagogo is on a mission to revolutionise the way people get tickets to live events, making it possible for anyone, anywhere in the world to see their favourite artists, teams or shows live.

We’ve helped millions of people from almost every country attend live events, and we’re just getting started. We believe creative individuals with innovative ideas are the engine for our rapid growth, so we’re looking for the world’s smartest problem-solvers to come make meaningful and measurable improvements impacting millions of people.

**Wellcome**

Subjects recruiting from:
- All disciplines
- Job areas recruiting to: Investments, science, policy, IT, HR, marketing, museums, education and communications
- Job location(s): London
- Number of graduate vacancies 2018/19: 10-12
- Internships and placements 2018/19: Vacation internships
- Ask me about: What makes our programmes different, and our culture

Wellcome exists to improve health for everyone by helping great ideas to thrive. Wellcome is a global charitable foundation. It supports scientists and researchers, takes on big problems, fuels imaginations and sparks debate.

We offer an investments programme which provides one year’s experience in our investments team with a further year to possibly work with a client or other teams within Wellcome.
