Life Sciences Seminar Programme Autumn 2015
Wednesday 4 pm Medical School Lecture Theatre LT4 unless indicated otherwise

23 September **Bryan Clarke Lecture**  
3.30 pm Paul Sharp FRS (University of Edinburgh)  
“Evolution of malaria parasites (and their hosts)”  
http://www.ed.ac.uk/schools-departments/biology/people?id=psharp&cw_xml=research_profile.php  
Host: John Armour

30 September **Chris Barnard Lecture**  
Leigh Simmons (University of Western Australia)  
“Sexual selection before and after mating”  
http://www.ceb.uwa.edu.au/research/researchers/simmons  
Host: Tom Reader

7 October **Tony Birmingham Lecture**  
Nigel Bunnett (Monash University, Australia)  
“Endosomes: Platforms for the signaling train to pain and inflammation”  
Host: Steve Hill

14 October Henrik Strahl (Newcastle University)  
“Polar localization of bacterial chemoreceptors by recruitment to highly curved septal membranes”  
http://www.ncl.ac.uk/camb/staff/profile/h.strahl  
Host: Thorsten Allers

21 October Anne Dell CBE FRS (Imperial College, London)  
“Life is sweet: Insights from glycomic research”  
http://www.imperial.ac.uk/people/a.dell  
Host: Rita Tewari

28 October **No seminar**

4 November Miles Carroll (Public Health England)  
“The science behind the control of Ebolavirus: a frontline experience of the West African outbreak”  
Host: Jonathan Ball

11 November **Fred Theodoreou (Rothamsted Research)**  
1 pm “Hunting for the elusive substrates of targeted protein degradation pathways: trials and tribulations with quantitative proteomics”  
http://www.rothamsted.ac.uk/people/theodoreou  
Hosts: Rob Layfield & Ian Kerr

18 November Julie Welburn (University of Edinburgh)  
“Mechanism and regulation of microtubule motors”  
http://www.wcb.ed.ac.uk/research/welburn  
Host: Bill Wickstead

25 November Jan Klohs (ETH Zurich, Switzerland)  
“Non-invasive imaging of the diseased brain: from microstructure to mapping of cellular events”  
http://www.neuroscience.ethz.ch/research/biomedical_technology/klohs  
Host: Tracy Farr

2 December Paul Conduit (Cambridge University)  
“Building a mitotic centrosome in Drosophila”  
http://www.zoo.cam.ac.uk/directory/paul-conduit  
Host: Andrew Renault

9 December Charlotte Bevan (Imperial College, London)  
“Inhibiting androgen signalling for prostate cancer therapy”  
http://www1.imperial.ac.uk/cancer/prostate/bevan/  
Host: Peter Shaw

Enquiries to Thorsten Allers (thorsten.allers@nottingham.ac.uk), Angus Davison (angus.davison@nottingham.ac.uk), Rob Layfield (robert.layfield@nottingham.ac.uk) or Alex Tarr (alex.tarr@nottingham.ac.uk)

Programme available online at http://www.nottingham.ac.uk/life-sciences/events/index.aspx
