**Week one programme for 1st year Physics students 2017-18**

**Monday 25th September**

**14.00-15.30, Physics induction, Lecture theatre B1, Physics building**
You will be welcomed by the Head of School (Prof Michael Merrifield) and given a brief course introduction by the Year 1 Organisers (Prof Anne Green and Prof Sue Francis). After this you will meet your mentor and Personal Tutor, to discuss your course and arrange weekly tutorial sessions, followed by refreshments in the staff tea room.

**Tuesday 26th September**

**11.00-13.00, Textbooks and photographs, First year lab A23, Physics building**
You will be allocated a time within this period to go to the lab to have your photograph taken and collect your free Physics textbook.

**14.00-15.00, University registration, David Ross Sports Village**
All Physics students must attend University registration within this designated time. See the University New Starters web page for further information, including a list of the information and documents you will need to take with you:

**Wednesday 27th September**

**12.00-13.00, Introduction to 1st year Physics modules, X1, Chemistry building**
You will be given an introduction to Year 1 modules by the Year Organisers and meet the Module Conveners who will deliver your lectures and workshops.

**13.30-16.30, Health Centre registration, Great hall and senate chamber, Trent building**
The UK Department of Health recommends that all students register with a Health Centre whilst studying at University. The University of Nottingham offers students the chance to register with its Health Centre which is specifically for students. For further information see:

**Thursday 28th September**

**9.00-10.00, Introduction to academic development, X1, Chemistry building**

**10.00-11.00, Engaging with knowledge: introduction to university libraries, X1, Chemistry building**

**11.00-12.30, Introduction to the 1st year laboratory, B3, Life Sciences building**

**15.00-17.00, Peer mentoring session, Physics building**

**17.00-18.00, Frontiers in Physics Seminar, B1, Physics building**
‘Surveying the distant Universe’, Prof Omar Almaini, followed by refreshments.

**Friday 29th September**

**9.00-10.00, Introduction to university IT facilities, C15, Pope building**

**11.30-13.00, Introduction to support services, X1, Chemistry building**

**14.00-15.30, Tutoring and pastoral support in Physics, C16, Pope building**

Regular lectures etc. start on Monday of week two, 2nd Oct 2017.
