

The Georg Rajka song – music and words by Hywel Williams, inspiration by the late Georg Rajka

Verse 1

This, this great symposium
Is thanks to Rajka's vision
Bringing you together – in harmony
To break down barriers through the world
So let's, let's remember him
Research – the answer lies within
All we practice must be based – on evidence
That way our science will prevail

Chorus – everyone please join in

Rajka, we all love Georg Rajka
The future's gonna be brighter
All because of Georg Rajka, Rajka..
Rajka, we all love Georg Rajka
The future's gonna be brighter
All because of Georg Rajka, Rajka..

Verse 2

Life, is a funny thing
Blink and it's not very long
Before we sing our parting song
On rights and wrongs
The things we did and didn't do....
But one, one man from Oslo
He, in his own special way
Helped so many people, with eczema
And left a legacy to last.....

Then Chorus – everyone please join in

Verse 3

Georg was kind and welcoming

His legacy has just began

Blessing this symposium, In Nottingham

With abstracts to appreciate

Robin Hood would welcome him

To his band of merry men

Giving something back to us – in gratitude

To help the patients we all serve

Chorus

Chorus repeat - maybe alternative chorus words below

Chorus repeat

Chorus last time and end

Alternative chorus for those allergic to the term “eczema”

We love, a-topic dermatitis, a-topic dermatitis,

Also known as eczema, eczema

We love, a-topic dermatitis, a-topic dermatitis,

Also known as eczema, eczema
