**Taster days**

**Vocational Taster days** (for 1st year level 3 vocational students)

**Tuesday March 13th 2018 - Nursing, Midwifery, Social Work, Physiotherapy and Sports Rehabilitation and Exercise, 9.30am – 3.30pm**

**Thursday March 15th 2018 – Computer Science, 9.30am – 3.30pm**

All first year BTEC/Cache and vocational students are invited to attend – no matter what subject area they are interested in studying at university. The day is aimed at giving students relevant information and guidance to help support their UCAS application when they return to college in September. We hope that this day will also help to raise aspiration and motivation for students to achieve their goals.

The day will consist of general advice, guidance and information regarding applying to HE and what it’s like once you get here. In the afternoon students will be able to pick a subject area of interest and attend a lecture/seminar session and find out more details about that particular course. Students will also have the opportunity to ask current students at the university lots of questions!

**Access to HE Taster days**

**Access to HE Taster day: Wednesday 1st November 2017**

**Subject areas:** Arts, Humanities, Business, Computer Science, Social work, Sociology, Law, English, History, Medical Therapeutics and Physiology, Physiotherapy, Sports Rehabilitation and Exercise, Engineering, Science.

For all Access students on pathways other than nursing and midwifery. The day is aimed at giving students the relevant information and guidance to help support their UCAS application as well as offering a chance to experience a ‘taster’ session in an academic subject area. Students will also have the opportunity to ask current mature students at the University lots of questions and be given plenty of advice and top tips. Campus tour included.

**Access to HE Taster day for Nursing and Midwifery: Thursday 2nd November 2017**

The day is aimed at giving students keen to apply for nursing and midwifery degrees the relevant information and guidance to help support their UCAS application. Students will experience a ‘taster’ seminar session and have the opportunity to ask current mature students at the University lots of questions. Advice about personal statements and the interview process will be covered too.
