

Listing of ALL Institutions who submitted to RAE 2008 under Panel 16 'Agriculture Veterinary and Food Science'

^ARP = Research Power

RP is calculated by taking the percentage of researchers in each * category 1 to 4 and multiplying that by the weighting for each.

This gives the "Quality Index" which is then multiplied by the number of staff submitted in the RAE to give the RP

RP is the independently-accepted ('Research Fortnight') means of assessing the overall research quality of submission

Please note these data are presented in graphical form on page 2

In excess of 90% of the total eligible staff were returned in the RAE.	Staff Submitted (Whole Number)	RATING:					RP ^A
