

Injury epidemiology and prevention group : Current and recently completed research projects:

- **The REFINE (REducing Falls in IN-patient Elderly) Study**
Investigators: O Sahota, D Kendrick, A Drummond, J Gladman, T Sach, M Avis, M Grainge.
Funded by the Research for Patient Benefit Programme. To commence 2008.
- **Multi-centre cluster randomised trial comparing a community group exercise programme with home based exercise with usual care for over 65s in primary care**
Investigators: S Illife, S See Tai, D Skelton, D Kendrick, S Dinan, T Masud, D Oliver, R Morris & H Gage
Funded by the Health Technology Assessment Programme. To commence 2008.
- **Test of an intervention to increase home supervision of young children**
Investigators: B A Morrongiello, D Kendrick & D Schwebel
Funded by the United States Department of Health and Human Services, September 2006 – August 2009.
- **Community Fire Safety Innovation Fund Evaluation**
Investigators: E Towner, M Brussoni, J Powell, M Hayes, D Kendrick, C Mulvaney, H Ward & S Robertson
Funded by the Office of the Deputy Prime Minister, September 2005 – December 2006.
- **Strategies and best practices for the reduction of injuries (APOLLO – work package 3)**
Investigators: E Petridou, D Kendrick, M Barrow, K Kuhn, E Negri, G Masanotti, Y Rahim, MS Gomez
Funded by the European Commission, December 2005 – December 2008.
- **Moving from observation to intervention to reduce inequalities in injury – programme of research including:**
 - **The UK Burden of Injury Study**
 - **Mixed methods study incorporating a randomised trial of use of advocacy with local councillors to reduce inequalities in injury risk**
 - **Randomised controlled trial of thermostatic mixer valves in reducing bath hot tap water temperature in families with young children in social housing**Investigators: R A Lyons, D Kendrick, E M L Towner, N Christie, C J Phillips, C Coupland, M Hayes
Funded by the Department of Health, September 2004 – September 2008.
- **Does the effect of home safety counselling or education with or without the provision of safety equipment differ between social groups? A systematic review and meta analysis**
Investigators: D Kendrick, A Sutton, C Mulvaney, C Coupland, M Watson & A Woods.
Funded by the Department of Health, March 2004 – September 2005

- **Evaluation of the Risk Watch Injury Prevention Education Programme in primary schools in Nottingham**
Investigators: D Kendrick, L Groom, J Stewart & M Watson
Funded by the Nottinghamshire Fire and Rescue Service, September 2004 – August 2005
- **Does the effect of home safety counselling or education with or without the provision of safety equipment differ between social groups? A systematic review and meta analysis**
Investigators: D Kendrick, A Sutton, C Mulvaney, C Coupland, M Watson & A Woods.
Funded by the Department of Health, March 2004 – September 2005
- **Multifactorial Intervention at the Day Hospital to Reduce Falls in Older People Identified as at High Risk in Primary Care: A Randomised Controlled Trial**
Investigators: T Masud, R Morris, D Kendrick, R Harwood, J Gladman, A Drummond, C Coupland, T Sach, J Youde & D Strokoe
Funded by the Nottinghamshire, Derbyshire and Lincolnshire Research Alliance Award 2003/4, 2004 - 2005
- **Systematic review of the effectiveness of parenting programmes in reducing child abuse**
Investigators: J Barlow, S Stewart-Brown, D Kendrick & L Polnay
Funded by the Nuffield Foundation, April 2004 – April 2005
- **Unintentional poisoning in pre-school children: what are the circumstances surrounding poisoning in pre-school children in the UK and what are the parent's views of the acceptability, feasibility and effectiveness of strategies to prevent poisoning?**
Investigators: B Patel, D Kendrick & L Groom
Funded by the Royal College of General Practitioners, October 2003 – November 2006.
- **Department of Health Public Health Career Scientist Award. Explaining inequalities in childhood home injuries.**
Investigator: D Kendrick
Funded by the Department of Health, September 2001 – September 2006.
- **Department of Health Researcher Development Award. A cluster randomised controlled trial of the effectiveness of an educational package in reducing baby walker use.**
Investigators: A Woods & D Kendrick.
Department of Health December 2001 – December 2004
- **Lids for Kids: a cluster randomised trial assessing the effectiveness of a helmet give away scheme and an educational package**
Investigators: D Kendrick, D Thomas, F Coffey, S Sheild & S Royal
Funded by Nottingham Health Authority, January 2001 – March 2003
- **Cluster randomised controlled trial of the effectiveness of an educational package in reducing baby walker use.**
Investigators: D Kendrick, A Woods, J Collier, M Dewey, R Hapgood & K Watts
Funded by NHS Executive Trent, October 1999 – December 2002.

- **Randomised controlled trial of the effectiveness of health visitor advice plus access to a low cost safety equipment scheme in reducing unintentional injury in childhood.**
Investigators: D Kendrick, A Woods, M Watson, C Coupland, J Robinson & D Futers
Funded by NHS Executive Trent, November 1999 – October 2002.
- **Ecological study of variations in injury rates by PCG in Trent.**
Investigators: J Hippisley-Cox, D Kendrick & C Coupland
Funded by NHS Executive Trent, September 1999 – June 2001.
