Welcome to the School of Geography

Based in one of the UK’s leading universities, the School of Geography has a reputation for excellence in teaching and research, producing graduates of an exceptionally high calibre. Our graduates are among the best ambassadors for the work we do at Nottingham.

We offer a friendly and inspiring learning environment, with teaching at the centre of what we do. Our exciting and challenging courses are some of the most flexible in the country and our modules span the full spectrum of the discipline, from the arts and humanities, through the social and natural sciences, to engineering and technology.

We use a variety of assessment methods across our courses, focus on providing prompt and effective feedback, and establish excellent relationships with our students. As a student in the School of Geography, you can benefit from a wide range of field trips to locations such as Italy and the USA.

Beginning university can sometimes be daunting; settling into a new home, making new friends and developing new ways of working is all a great deal to take in. Within the school, we are committed to providing pastoral support for all our students, including our highly successful peer mentoring scheme, and will do everything we can to support you during your time with us.

We look forward to welcoming you to the school.

Professor Giles Foody
Head of the School of Geography

Studying geography at Nottingham

Bridging the sciences and humanities, geography is the ideal subject for anyone keen to develop a broad understanding of the world around them.

High-quality teaching
We aim to equip graduates with strong personal and interpersonal skills, an ability to synthesise both quantitative and qualitative information, and the intellectual capacity to produce original and thoughtful interpretations of our ever-changing world. Particular strengths of our undergraduate courses include small-group teaching, practical and laboratory classes, and field work.

Field course opportunities
The best way to develop your practical skills is to immerse yourself in the environment on one of our field trips. We offer numerous opportunities to travel to inspirational destinations in the UK and overseas, through our diverse range of modules. Not only will you have the chance to put your knowledge into practice, you will also enhance skills and techniques which will prove useful in your future career.

Find out more about our field course opportunities on pages 12-13.

At a glance
- Enjoy a high level of flexibility in a supportive environment, with a broad range of modules spanning the full spectrum of the discipline
- Develop your practical skills by immersing yourself in environments of geographical interest in locations such as Italy and the USA
- See geography from a new perspective by studying abroad in countries including Australia, Canada, Malaysia and New Zealand

Why study with us?
- Top 50 geography department worldwide*
- 75% of research output rated world-leading or internationally excellent**

* Including geography or equivalent, excluding general studies and critical thinking; plus GCSE maths, 4 (C) or above.
** Including two science subjects (biology, chemistry, environmental science, environmental studies, geography, geology, maths, physics, or closely related subjects), excluding general studies and critical thinking; plus GCSE maths, 4 (C) or above.
A pass is required in science practical tests, if assessed separately.

English language requirements
IELTS 7.0 (no less than 6.0 in any element). For more information and a list of the alternative English language requirements we accept, please see nottingham.ac.uk/go/alternativerequirements

GCSE reform
In keeping with the reform to GCSEs in England where subjects are to be graded from 9 to 1 instead of A* to G, we can confirm that in accordance with Ofqual recommendations, we will treat GCSEs graded numerically as GCSE grade A=7, B=5, C=4. GCSE qualifications taken outside of the UK will still be graded A* to G.

Developing your academic English and study skills
The Centre for English Language Education (CELE) offers you the opportunity to develop your English language skills at one of the world’s top universities. Accredited by the British Council for the teaching of English, CELE provides high-quality teaching, facilities and support. Our presessional courses take your English language and academic skills to the level you need to progress to undergraduate study without taking IELTS again. Find out more at nottingham.ac.uk/cele

Over one-third of our UK students receive our means-tested core bursary, worth up to £2,000 a year. For details, see nottingham.ac.uk/financialsupport

For more information about our courses visit nottingham.ac.uk/ugstudy/geography
BA | BSc Geography

Focused on understanding the physical and human environment, these courses allow you to choose from a range of modules according to your interests.

They offer broad and flexible programmes of study, which will equip you with the necessary skills of analysis and synthesis to critically understand information from a wide range of sources.

There are opportunities to travel to inspirational destinations in the UK and overseas, through a number of modules with a field trip element.

Year one
Year one is a foundation programme covering human and physical geography and geographical information science. You are encouraged to choose geography options appropriate to your BA | BSc degree or other modules at an appropriate level from across the University. Many students opt to study languages, the social and natural sciences or engineering, in addition to modules offered by the School of Geography.

Year two
In year two you have fewer core modules and can choose from a range of modules appropriate to your BA | BSc degree. You will have the opportunity to pursue 20 credits of appropriate modules from outside geography, subject to approval.

You can also apply to spend a semester of your second year abroad, studying in locations such as Australia, Canada, Singapore and the USA. Find out more at nottingham.ac.uk/geography/study-abroad

Year three
In year three the dissertation is the sole core module. Alongside this, you can choose from a range of advanced geography modules appropriate to your degree and your year two module choices.

For more detailed course content visit nottingham.ac.uk/ugstudy/geography

Yaroslava Hnylycia, BA Geography

The School of Geography is so welcoming and friendly. You have the flexibility to choose modules from a wide range of options, so you can create a degree programme that works for you.

Quantitative Methods pathway
BA Geography students can choose to take a Quantitative Methods pathway as part of their course, graduating with a BA Geography (Quantitative Methods) degree. This is part of our Q-Step Affiliate programme, a national initiative to provide graduates with the skills employers are looking for. Find out more at nottingham.ac.uk/q-step

These courses are accredited by the Royal Geographical Society (with the Institute of British Geographers).

Royal Geographical Society with IoB Accreditated Programme

For more detailed course content visit nottingham.ac.uk/ugstudy/geography
BSc Environmental Geoscience

Focusing on environmental and geological issues of societal concern, this course is unique in that it is provided in conjunction with the world-leading British Geological Survey (BGS).

Run collaboratively with the BGS, which advises the UK government on all aspects of geoscience, it is designed to help grow the next generation of environmental geoscience experts.

Year one
Designed to ensure you have the key foundation-level knowledge required for more in-depth study in years two and three, the first year of this course includes introductions to geological, atmospheric, oceanic and ecological systems.

You will develop your practical research skills with a four-day intensive residential field course in the Lake District.

Years two and three
In years two and three, you'll undertake core modules in geology and research techniques, and will also prepare a 10,000-word dissertation based on a research topic of your choice. You will undertake fieldwork (currently in Cyprus), and choose from a range of geoscience modules.

You can also apply to spend a semester of your second year studying abroad. Find out more at nottingham.ac.uk/geography/study-abroad

Modules may change, for example due to curriculum developments. The above list is a sample of typical modules that we offer, not a definitive list. The most up to date information can be found on our website at nottingham.ac.uk/ugstudy

One of the reasons I chose to study in the School of Geography was it’s close proximity to the British Geological Survey and the fact that it works closely with them. I was also excited by the amount of career-related opportunities and outside speakers.

Abbie Dodds, BSc Environmental Geoscience

For more detailed course content visit nottingham.ac.uk/ugstudy/geography
BA Geography with Business

Catering to growing industry demand, this course will equip you with an awareness of the economic, political and social issues surrounding the environment, policy and management.

It is taught by the School of Geography and Nottingham University Business School, which is located on the award-winning Jubilee Campus.

There are opportunities to travel to inspirational destinations in the UK and overseas, through a number of modules with a field trip element.

Year one
The first year is a foundation programme covering human geography and geographical information science, as well as business economics, organisational behaviours, consumers and markets.

Year two
In year two, you will typically take a combination of core modules in geography and business, including those related to economic geography and strategic management.

You will have the opportunity to choose from a range of human geography, strategic management and geographical information science modules. You can also apply to spend a semester of your second year studying abroad. Find out more at nottingham.ac.uk/geography/study-abroad

Year three
In year three, the dissertation is the sole core module and you are encouraged to select a business-related aspect of geography to study. Alongside this, you will have the opportunity to choose from a range of advanced modules from geography and business, appropriate to your degree, career aspirations, and year two optional choices.

Robert Day, BA Geography with Business

The course suited me perfectly as it allowed me to explore economic and cultural themes of geography in more depth and complement this with business modules to develop a more well-rounded knowledge. The lecturers are really supportive and very passionate about their subject areas.

Modules may change, for example due to curriculum developments. The above list is a sample of typical modules that we offer, not a definitive list. The most up to date information can be found on our website at nottingham.ac.uk/ugstudy

For information on modules provided by Nottingham University Business School, see nottingham.ac.uk/ugstudy/business
**Field course opportunities**

Field courses are an exciting opportunity for you to gain hands-on experience in a range of topics. For 2018/19, the following modules have a residential field course element. All field courses on core modules are free to attend.

**Year one**

**Geographical Field Course**
Lake District, Cumbria, UK

On this four-day intensive residential field course, teaching concentrates on the rationale and techniques of field study in both human and physical aspects of geography. Particular emphasis is placed on the design, practice and analysis of small research projects. This field course is compulsory for all courses provided by the school and is a core module in year one.

**Year two**

**River Management and Restoration**
Porlock, Somerset, UK

On this three-day residential field course, you will explore the fundamentals of fluid flow, sediment transport and bank erosion in rivers, which are essential for understanding contemporary issues in hydrology.

**Techniques in Physical Geography**
Malham, North Yorkshire, UK

This residential field course provides training in physical geography field and laboratory techniques, as well as guidance in the planning and execution of individual and group research projects.

**Year three**

**European Urban Geographies**
Berlin, Germany

This five-day field course provides you with an understanding of the evolution, socioeconomic, political and cultural dynamics of the city.

**Geological Mapping**
Cyprus

This nine-day trip allows you to study geological mapping field skills in the unique setting of the Troodos ophiolite – a sliver of ocean crust exposed by a diapir of serpentinite. You will walk on the mantle, cross the Moho and step on deep ocean floor covered in black smoker deposits.

**North American Urban Geographies**
New York City, USA

On this five-day trip you will study complex urban processes in this leading global city. By the end of the module you will gain an in-depth understanding of its socioeconomic, political and cultural dynamics.

**The Landscape History of Liguria**
Liguria, Italy

A one-week residential field course which introduces the principles of landscape history and historical ecology, and draws on a wide range of sources including historical maps and documents, field survey of vegetation and landscape features and verbal history.

**Practical River Management and Restoration**
Mount St. Helens, Washington, USA

Mount St. Helens is one of the world’s most important natural laboratories for the study of severely disrupted rivers. On this 12-day trip, you will examine river processes and dynamics within the context of human efforts to manage and restore these systems.

**Quaternary Environments**
Yucatan Peninsula, Mexico

On this 10-day trip, you will explore the relationship between climate, environment and society over the last 10,000 years. It enables you to examine a range of data sources for reconstructing past environmental change, while undertaking your own fieldwork project.

A number of modules in all years also involve regional one-day field trips, for example to the Peak District.

The variety of one-day field trips and residential field courses which are offered to students may vary from year to year. The above modules have a field course element and may change, for example due to curriculum developments. This list is a sample of typical modules that we offer; not a definitive list. The most up to date information can be found on our website at nottingham.ac.uk/ugstudy

Engaging study, incredible results

What makes our degrees stand out is the flexibility we provide. With the School of Geography, you can tailor your degree, selecting modules from across the breadth of human and physical geography, and more broadly across the University.

Teaching
On our undergraduate courses, the emphasis is placed on teaching via a range of methods and approaches. Lectures are the most formal type of instruction and help to consolidate information and give you an opportunity to hear a specialist speak on a subject.

Small-group teaching is equally important and includes seminars, tutorials, laboratory work and practical classes.

Support
The school provides an informal yet supportive and productive environment. You will be assigned a personal tutor, who will act as an academic tutor to facilitate small-group working, independently, doing the necessary reading in preparation for tutorials, writing essays or working on seminar presentations.

How will I be assessed?
Assessment methods include formal examinations that are multiple choice or essay style, essays, project reports, lab reports, field notebooks, posters, verbal presentations and a 10,000-word dissertation. Your final degree classification is based on marks gained during your second and third years of study.

How to apply

All applications for an undergraduate place to study at University of Nottingham, including applications by international students, must be made through UCAS.

Applications should be made online at ucas.com and candidates will be notified of decisions through UCAS using UCAS Track.

Your personal statement
This is the section of your UCAS form that tells us most about you, and you should make the best use of it. Be as specific and detailed as you can - we would like to see that you are a student who can work hard, be self-motivated and make the best possible use of the opportunities that our courses offer you. We would also like to hear about any skills you have gained through extracurricular activities.

Alternative qualifications
In this brochure you will find our A level entry requirements but we accept a much broader range of qualifications. These include:
- Access to HE Diploma
- Advanced Diploma
- BTEC HND/HNC
- BTEC Extended Diploma
- Cambridge Pre-U
- International Baccalaureate
- Irish Leaving Certificate
- Scottish Advanced Highers
- Welsh Baccalaureate Advanced Diploma

This list is not exhaustive; we will consider applicants with other qualifications on an individual basis. Please contact us to discuss the suitability of your qualification.

Flexible admissions policy
We recognise that some educational and personal circumstances affect achievement. If we judge that you have experienced circumstances that have adversely affected your achievement, we will consider them when assessing your academic potential. Some courses may vary the offer as a result. For the most up to date information about our offers, please see the entry requirements section of our course pages on our online prospectus. For more information about this policy, please see nottingham.ac.uk/ugstudy/applying

Mature applicants
We encourage applications from mature applicants who have a significant gap in education. You should apply in the normal way through UCAS. More information for mature students can be found at nottingham.ac.uk/mature

International applicants
The University provides a range of information and advice for international applicants. If you are unable to attend an open day, we can meet you in your country at one of our overseas events or arrange an individual visit to the University. For further information please visit nottingham.ac.uk/go/international-applicants

Deferred entry
Applicants who wish to defer their entry by a year will not be at a disadvantage. Please tell us something about your plans for your gap year in your UCAS personal statement.

Equal opportunities policy
The University aims to create the conditions whereby students and staff are treated solely on the basis of their merits, abilities and potential, regardless of gender, race, colour, nationality, ethnic or national origin, age, socio-economic background, disability, religious or political beliefs, trade union membership, family circumstances, sexual orientation or other irrelevant distinction.
World class for employability

The broad sweep of geography as a discipline and the range of options available at Nottingham ensure that you will have a wide range of career opportunities open to you.

Geographers look at issues from a wide perspective, which means our graduates are very popular with a wide range of employers who appreciate the range of personal and transferable skills they offer.

95% of first-degree graduates from the School of Geography who were available for employment secured work or further study within six months of graduation*

£21,702 was the average starting salary, with the highest being £39,500*

Geography alumni regularly provide careers advice to current students at talks and careers events organised by the school. Find out more at nottingham.ac.uk/geography/careers

* Known destinations of full-time home first-degree undergraduates 2014/15. Salaries are calculated based on those in full-time paid employment within the UK.

Find out where Nottingham could take you and network with our graduates on LinkedIn.

Recent graduate destinations:
- British Geological Survey
- Capita
- Network Rail
- Swiss Re
- Tesla

Our comprehensive careers programme includes one-to-one CV workshops and employer talks from school alumni. We also offer a Careers Skills for Geographers module, which includes guest lectures from organisations such as the Royal Geographical Society, and a programme of career networking events.

Careers and Employability Service
Our Careers and Employability Service has a team dedicated to Faculty of Social Sciences students. They will be on hand to offer you specialist support and guidance throughout your degree and for life after you graduate. Whether you need help writing a CV, preparing for an interview or exploring career ideas, you can book one-to-one appointments or come along to a workshop. Each term there is also an exciting events schedule, bringing you face-to-face with employers offering real-life insight into their professions.

The Nottingham Advantage Award
The award-winning Nottingham Advantage Award recognises and rewards your extracurricular activities. With a choice of over 200 modules, you can hone the key skills employers want. From developing your leadership skills and learning a language to public speaking and volunteering, you will leave university with demonstrable experience that sets you apart from other graduates. For further information, please visit nottingham.ac.uk/careers/advantage
Experience it in a world beyond ordinary

There’s so much for you to get involved in and explore at the University and around the city. Whether you’re interested in sports, learning a language or just having fun with friends alongside studying, you’ll be spoilt for choice.

Getting involved in your Students’ Union
University of Nottingham Students’ Union (UoNSU) is a brilliant, diverse community, and whether you are an undergraduate or postgraduate, first-year or final-year student, you are a part of it. With 300+ student-led groups, clubs and societies, hundreds of volunteering opportunities and support for every stage of your university journey, your Students’ Union offers something for everyone. Find out more: su.nottingham.ac.uk

Exploring your new city
Nottingham city centre is around a 10-minute bus ride away from University Park Campus, so you’re always close to the action. There are plenty of music venues, from the world-famous Rock City to the Motorpoint Arena or one of the smaller gig venues for a more intimate live show. If you enjoy shopping, there are independent boutiques and vintage shops as well as high street names in our large shopping centres. Nottingham is also a hotspot for dining, with a great choice of cuisines on offer. Find out more: nottingham.ac.uk/nottinghamlife

Your new home from home
At Nottingham we offer a wide range of room types across the campuses in both catered and self-catered accommodation. From standard single rooms with shared bathrooms to large en-suite studios and flats, there’s something to suit every budget and personal choice. For current pricing and to review all accommodation options please visit nottingham.ac.uk/accommodation

Sport
The University of Nottingham is one of the UK’s leading universities for sport and is currently ranked 4th in the university sport rankings*. We have one of the biggest portfolios of sports facilities in the country including the brand new £40m David Ross Sports Village. We also have a rich heritage of supporting Olympic medallists and we have more than 70 student sports clubs to choose from. Find out more: nottingham.ac.uk/sport

*British Universities and Colleges Sport Standings, 2015-16.

Your support network
Throughout your university journey there will be numerous people on hand to support and advise you, including tutors and dedicated staff. We have Student Service Centres on all three of our UK campuses, which provide a range of support, information and specialist services. Find out more: nottingham.ac.uk/studentservices

Learn a language
The University’s Language Centre gives you the opportunity to study a language alongside your course. All languages are offered from beginners’ level with some going up to near native competency. There are nine languages to choose from: Modern Standard Arabic, Dutch, French, German, Italian, Japanese, Mandarin Chinese, Russian, and Spanish. Find out more: nottingham.ac.uk/language-centre

Music
All student musicians at the University of Nottingham are encouraged to get involved with the vibrant musical life on campus. Find out more: nottingham.ac.uk/music/performance

Your opportunity to study abroad
We offer a range of study abroad opportunities with many students having the option to live and study in another country as part of their university career. Studying or working abroad is a fantastic opportunity to broaden your horizons, experience different cultures, and develop the key skills that employers are looking for. Find out more: nottingham.ac.uk/studywithus/studyabroad

This brochure has been drafted in advance of the academic year to which it applies. Every effort has been made to ensure that the information contained in this brochure is accurate at the time of publishing, but changes (for example to course content) are likely to occur given the interval between publication and commencement of the course. It is therefore very important to check our website for any updates before you apply for the course by following nottingham.ac.uk/ugstudy. Where there is a difference between the contents of this brochure and our website, the contents of the website take precedence.
