

Programme of Events: Nottingham Digitally Engaged 2020

Monday 16th November – Friday 27th November

A series of online webinars and events to share, learn and debate new approaches to policy impact and public engagement.

This fortnight of online events is designed to explore recent developments in both policy and public engagement. In a world increasingly connected through digital means this online version of the annual Nottingham Engaged Conference brings together a mix of internal and external expertise. We hope to discover new approaches, share experiences, participate in debates and explore factors impacting these fields. Topics to be included build on our past programmes and are delivered in the context of the UK's departure from the EU, the global pandemic and a new age for digital engagement.

Has COVID changed evidence-based policymaking?

16 November 15:00-16:30

A panel discussion with Prof Tom Rodden (UoN/DCMS), Jill Rutter (Institute for Government), Kathryn Oliver (Transforming Evidence) and Stephen Meek (Institute for Policy Engagement).
