**BSc Physiotherapy**
Elective placements of three weeks form part of the final year, and may be undertaken in an international location. Previously students have arranged international electives in a variety of settings including Singapore, the Philippines, India, Malaysia, Malawi, Romania and Spain. Typically all costs associated with the elective placement are covered by students, although where appropriate, students are supported to apply for Charitable body funding, for instance from AMECA for Africa based placements, or the CSP for worldwide placements.

The Division of Physiotherapy and Rehabilitation Sciences has an Erasmus plus agreement with the European University of Madrid. Applications are open to all year 2 Physiotherapy students and the exchange takes place in semester 2 of year 3. There is the opportunity to do clinical and/or academic exchange. For clinical placement exchange the expectation is that students can evidence Spanish to B2 level. Funding is available through the Erasmus plus scheme.
