Study abroad opportunities 2020/2021

School of Medicine

Elective abroad
The Elective attachment is an integral part of the Nottingham curriculum, enabling students to demonstrate certain competencies while allowing choice in studying an area of particular interest to them. The Elective takes place towards the end of the final year and is self-arranged and can be taken in a foreign country or the UK (subject to approval from the Electives Lead). Students will be asked to start considering where they wish to take their Elective during their 4th year.

School of Veterinary Medicine and Science

Extra Mural Studies abroad
Up to four weeks of Animal Husbandry Extra Mural Studies and up to 12 weeks of Clinical Extra Mural Studies can be taken overseas, providing strict criteria are met regarding placement selection and host suitability. Placements normally take place during holiday periods and must be approved by the School in advance.

Research project abroad
It is possible to undertake your third-year research project abroad, providing strict criteria are met regarding project selection and host suitability. Research projects must be approved by the School in advance.
