What does being a Judge for the Engineering Research Showcase entail?
Each year Postgraduate Research students from Engineering present at the Engineering Research Showcase. Each student year group have a chance to present their work in a different manner.

For Year 1 students it is a ‘1 Minute Madness’ quick-fire presentation that introduces the students and their proposed research.

Year 2 students present posters, judged in three categories:
- Best Research Quality
- Best Research Impact
- Best Overall Poster

Year 3 students present a ‘3 Minute Thesis’ scaling down their 100,000 word thesis into just three minutes!

This year we’re looking for volunteers to judge the Year 2 poster section of this event. There will be 40+ posters on display and we'd like judges to speak with the students presenting to give them the opportunity to defend their research.

This is a unique and exciting opportunity for alumni and students to interact and network in an informal setting. Volunteers are welcome to stay for the whole day if they wish.

When does the opportunity take place?
Date: Wednesday 2 May 2018
Time: 13:00-15:00
Location: Engineering and Science Learning Centre Atrium, University of Nottingham

Who could be a Judge for the Engineering Research Showcase?
We’re looking for enthusiastic volunteers who:
- Have knowledge and an appreciation of Engineering – across the whole on Engineering (Civil, M3, EEE, CEE, Architecture)
- Are able to talk to students either individually or as groups
- Can give judging feedback that is constructive and emphasise positive aspects
- Can offer encouragement and positive suggestions for improvements

Interested?
Please complete an application form to apply. A member of the Team will then be in touch to discuss your application in more detail.
