

GALAXY memoirs:

Inferring their past
from their present

Armação dos Búzios, Brazil,
10–15 August 2025

A conference to bring together experts in the fields of *galaxy dynamics*, *chemical evolution* and *galaxy environment* to discuss recent results, foster collaborative discussion, and understand just how much of a galaxy's past can be inferred from its present-day state

**In honour of the careers of Prof. Michael Merrifield
