Welfare Support on the BBSRC DTP

University of
Nottingham
UK | CHINA | MALAYSIA

Our role is to support you as post-graduate researchers while you are on the BBSRC DTP programme

We provide 121 appointments to help with any issues or problems you may be experiencing and help to signpost to University support services, including a pre-arrival appointment with all new DTP students

We support you if you need time off from your research for illness, maternity or paternity leave, or need to get a disability support plan in place

We work on initiatives to support our diverse student groups in recognition of the additional challenges they may face while undertaking PhD research

Support for Diverse Groups

University of
Nottingham
UK | CHINA | MALAYSIA

AMPlify Mentoring Programme

One of our support initiatives is a mentoring programme for applicants to the DTP who identify as Black, Asian or Minority Ethnic. You will receive support from a current DTP student around the application and interview process.

If you are eligible and would like to apply for mentoring support, you can do so here: <https://www.nottingham.ac.uk/bbdtp/equality-diversity-and-inclusion/amplify.aspx>

Please note that you need to have UK Home Fees status for 2024 to apply for AMPlify, International students are not eligible for this programme.

Peer Mentoring

University of
Nottingham

UK | CHINA | MALAYSIA

We co-ordinate a Peer Mentoring programme for all new postgraduate researchers on the DTP

In your first year you will be matched with a current DTP student in their second year or above, and they will be happy to meet with you to discuss anything DTP or PhD-related

We also manage the Adapt Together Peer Mentoring programme which provides the opportunity to form peer support groups across the University

[Adapt Together](#)

PGR specific training

University of
Nottingham

UK | CHINA | MALAYSIA

- We've created several training sessions designed especially for PGRs with a focus on wellbeing which you can attend.
- We look at making the transition into research and how to build up a good work life balance to support wellbeing while doing a PhD
- We also run training for our BBSRC supervisors in mental health awareness and supporting PGRs from diverse backgrounds

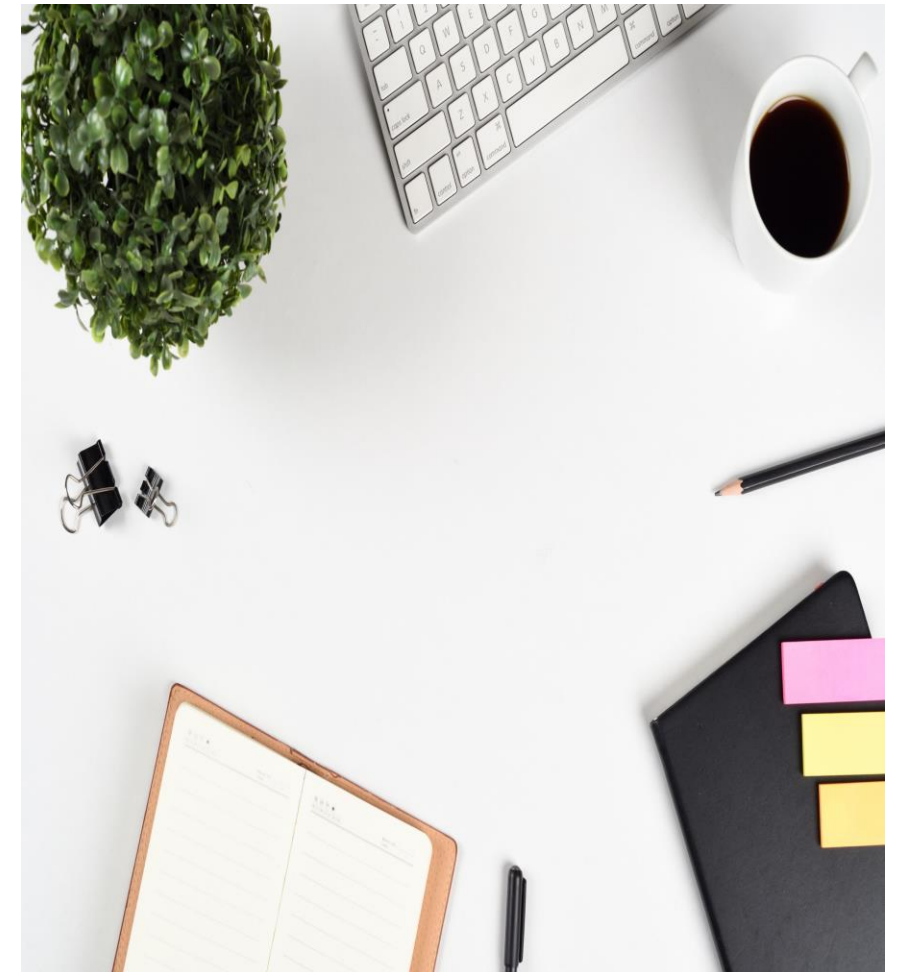

Placements while on the DTP

University of
Nottingham
UK | CHINA | MALAYSIA

- As a DTP student on the standard programme you will undertake a placement in your 3rd year.
- This is called The Professional Internship for Postgraduate Students (PIPS)
- The placement is usually for 13 weeks and there is funding available to support with accommodation and travel costs

Placements (PIPS)

University of
Nottingham

UK | CHINA | MALAYSIA

- Undertaking a placement is a great opportunity to experience a different environment and build additional skills
- It can give you an advantage in future career options as you can evidence experience in a work environment
- You can create new networks and increase your contacts
- CASE students will undertake a placement with their industrial partner and arrange this directly with them
- Students on the standard programme have the opportunity to source their own placement, with support from the DTP

Placements (PIPS)

University of
Nottingham

UK | CHINA | MALAYSIA

Alice and Sandra provide support around the PIPS process:

- Advice on how to find a placement
- Support to complete all the necessary paperwork
- An individual 121 meeting before you go on your placement
