

To all new Postgraduate Students
School of Biosciences
Sutton Bonington Campus

August 2016

Congratulations on securing a place at the University of Nottingham's School of Biosciences, based on the Sutton Bonington campus. You will be joining a large and active community of postgraduate students with staff committed to provide a first class environment for teaching and training in research.

The academic reputation of the School of Biosciences is second to none in the UK and I hope that you will soon start to reap the benefits of working in an environment at the cutting edge of research and teaching in fundamental and applied aspects of biological and physical sciences.

You will find information in this pack about the events and procedures during Welcome Week. In addition, information on what documents you may need to bring with you on your arrival is provided. Please read through this, but don't let yourself be daunted by it – there will be many staff and students around to help you settle in. Further information about the services and facilities on the Sutton Bonington campus will be available on your arrival.

In the meantime, if you have any questions, please contact us. Tel: (+) 44 (0) 115 74 86500
Email: student-services-reception-sb@nottingham.ac.uk

Yours sincerely

A handwritten signature in black ink that reads "Simon Langley-Evans". The signature is fluid and cursive, with "Simon" on the first line and "Langley-Evans" on the second line.

Professor Simon Langley-Evans
Head of School and Professor of Human Nutrition
