Welcome to Nottingham

Nottingham is a great place to live, work and study. There’s so much to explore in the city and beyond – yet it always feels like home.

Nottingham is an old city with a rich history, recognised as a UNESCO City of Literature. You can explore the ancient caves, enjoy a drink in England’s oldest pub or explore Wollaton Hall – Batman’s home in *The Dark Knight Rises*.

Leading employers

Nottingham is home to several major UK employers, including Walgreens Boots Alliance, Experian, Capital One, E.ON and the Inland Revenue.

Several large blue-chip companies and prominent organisations have offices in and around the city. The Business School has strong links with many of them, including Rolls-Royce, based nearby in Derby. The city’s Creative Quarter is a hub of entrepreneurial businesses.

Sports, entertainment and culture
The city is a safe place for an enjoyable day or night out, with lots of ways to get involved:

- Watch a Test Match at the world-famous Trent Bridge Cricket Ground
- Enjoy live music and comedy at an intimate venue or the city’s arena
- Take in a play or sing along to a musical at one of Nottingham’s theatres
- Catch a football game with Nottingham Forest or Notts County
- Watch an independent film at a local cinema or enjoy the latest blockbuster at a multiplex

A world of food
Nottingham has affordable restaurants, quaint tearooms, gastropubs and much more. Vegan, vegetarian, kosher and halal food is readily available. There are also international supermarkets.

Transport links
Buses and trams run between the city centre, train station, our campuses and other areas.

We’re also in a great location for exploring the UK, with easy train and bus links to the Lake District, Manchester, York, London and more.

Nottingham University Business School

The Business School is based on the award-winning Jubilee Campus, which is recognised for its innovative architecture and sustainability.

Our Business Schools in Nottingham, China and Malaysia are accredited by the European Foundation for Management Development and the Association of MBAs – the world's leading accrediting bodies for business schools.

We are an international leader in finance and management education. Our research has a real impact across the world. We are working to help end modern slavery, improve workforce productivity and examine the ethics around sharing data for public good.

We are ranked 6th in the UK for research power in the latest Research Excellence Framework, reflecting the quality and influence of our research.

Accredited courses

Many of our MSc courses are accredited by professional bodies. This allows you to gain additional qualifications as well as your postgraduate degree.

MSc Finance and Investment has been accepted into the Chartered Financial Analyst Institute.

MSc Human Resource Management and Organisation is accredited by the Chartered Institute of Personnel and Development, offering you exemption from their advanced diploma.

MSc Banking and Finance holds Chartered Banker Institute Centre of Excellence accreditation – the gold standard for banking professionals.

Chartered Banker
Centre of Excellence

MSc Marketing is accredited by the Chartered Institute of Marketing – you will receive a degree and a professional qualification.

MSc Risk Management is recognised by the Chartered Insurance Institute – the world's leading professional body for insurance and financial services.

Why choose Nottingham?

We can help you develop the skills to secure senior positions in industry, commerce and the public sector, or prepare for PhD research.

Global connections

We offer unique international experiences with opportunities to establish valuable business relationships with global peers.

We currently have students from over 50 countries across our MSc courses, combining different perspectives.

MSc Business and Management students can spend part of their degree at the University of Nottingham Malaysia.

Research-led teaching

Our MSc tutors are leading researchers in their fields. You will study in small, diverse classes, alongside academic and industry experts.

The Global Centre for Banking and Financial Innovation is a leading centre for financial services, risk and insurance. Academics from this centre teach MSc Banking and Finance.

The Haydn Green Institute for Innovation and Entrepreneurship specialises in enterprise and entrepreneurial skills development. It is one of Europe's leading centres in this field, offering MSc Entrepreneurship, Innovation and Management.

Inspirational location

Jubilee Campus has eco-friendly and sustainable buildings, alongside green spaces, wildlife and a lake. It covers 65 acres and was first opened in 1999 by Her Majesty the Queen. The campus has won a national Green Flag award every year since 2013.

Facilities include a sports centre, computer labs, restaurants, cafes, multi-faith centre and shop. You will also have access to specialist services such as the Business School library and financial data systems including Bloomberg, Datastream, Bankscope and Financial Times.

You can walk to University Park Campus in 20 minutes or catch a free hopper bus. Nottingham city centre is 20 minutes away by bus.

Support network

We offer a range of services to ensure you have the support you need to succeed and enjoy life at the University.

You will have access to:

- academic and disability support
- childcare services
- counselling service
- financial support
- visa and immigration advice
- welfare support

You will also have a personal tutor and welfare contact in the Business School.

 nottingham.ac.uk/studentservices

Global business network

Connect to a powerful network of business contacts, with over 19,000 Business School alumni around the world.

Alumni often visit the school as guest speakers and act as mentors and advisers. Others offer work experience and dissertation projects at their companies or organisations.

If you are considering applying, we can put you in touch with alumni who can talk to you about their experiences and help answer any questions about living and studying in Nottingham.

Connect with business

We provide a variety of ways for you to meet and network with businesses and employers. You can build experience and put business theory into practice.

Business experience

We work closely with a range of placement schemes, community engagement initiatives and organisations. This allows you to gain experience and exposure to business practice.

The University offers paid placements with local businesses that fit around your studies. Part-time jobs are available through Unitemps, our recruitment service.

Dissertation project

You could choose to focus your dissertation research on a particular issue or challenge faced by a business. Support is available to help you identify and source appropriate projects.

Volunteering

Through our postgraduate volunteering programme, Cheese Matters, you can work with local businesses to deliver financial education to secondary school students.

You will have the opportunity to train and deliver sessions alongside company representatives to raise financial awareness among young people.

There are a range of volunteering opportunities through the Business School, the University's community engagement programmes and the Students' Union.

“The Business School offered me a full scholarship. Not having to worry about my tuition was life-changing as well as inspiring and motivating. Without financial help, I would not have been able to study at a top UK business school.”

Elitsa Nacheva, Bulgaria
MSc Management
Management Consultant,
Financial Services, Accenture

Your career, your way

Through a combination of your academic studies and careers support, you will be in an excellent position to make your next career move.

Careers support and advice

Our in-house Postgraduate Careers Team provides expert advice and guidance. This ensures that you can make an informed decision about the right career path for you.

As soon as you have accepted your offer, we can begin working with you to support your career planning needs. You can take part in pre-course careers discussions.

During your course, you will benefit from our:

- skill development sessions delivered by experienced professionals
- careers events, networking opportunities and work experience options
- individual guidance on career planning, applications, interviews and professional skills
- online resources and alumni networks for information on working around the world
- vacancy alerts to keep you up to date with the latest job opportunities
- psychometric assessments to increase self-awareness and prepare for recruitment processes
- talks from legal experts on the latest regulations for working in the UK

Our support doesn't end there. As an alumnus, we will stay in touch with you to track your career progression and you will still be able to access many of our services.

88.8% of postgraduates from Nottingham University Business School **secured graduate level employment or further study** within 15 months of graduation

HESA Graduate Outcomes 2020, using methodology set by *The Guardian*

- Dell
- Ericsson
- EY
- HSBC
- KPMG
- Nestlé
- Procter & Gamble
- PricewaterhouseCoopers (PwC)
- Rolls-Royce
- Société Générale
- United Nations

Study in China or Malaysia

The University has campuses in China and Malaysia, also offering high-quality business and management degrees.

All courses are taught in English to the same teaching assessment standards as the University of Nottingham in the UK. This means that you be sure your degree will be recognised by employers and universities worldwide.

The business schools on all three campuses are EQUIS accredited by the European Foundation for Management Development. Both campuses are purpose-built, and feature teaching and IT facilities, accommodation, a sports centre and food outlets within easy reach.

How to apply

International students can apply for part-time and full-time courses at our Malaysia Campus, and full-time courses at our China Campus. You must hold a valid visa for the programme you want to study. Applications should be made directly to each campus.

Qualifications from all our campuses are recognised equally. However, courses that are accredited by external bodies in the UK may not be accredited in the same way at our international campuses.

Business School Malaysia

Established in 2000, Nottingham University Business School Malaysia provides unique insights into Asian business growth and development.

Its range of MSc courses and MBAs can help prepare you for a career in a range of industries.

- MSc Business and Management
- MSc Finance and Investment
- MSc Professional Accountancy
- MBA Master of Business Administration
- MBA Finance

 nottingham.edu.my/business

Accounting and finance

MSc Accounting and Finance

This course will build on the business skills you gained in your undergraduate studies and equip you with specialist knowledge in financial accounting. It will help to enhance your lucrative career opportunities in the multinational accounting and finance sector.

Core modules will help develop an advanced understanding of essential areas, including corporate financial strategy and financial security valuation. You can also choose from optional modules that enable you to specialise in areas that align with your individual career goals, such as behavioural economics, international finance and corporate governance.

This MSc will enhance your CV for prestigious employers who are looking for the skillset you will have. As an asset to their organisation, you can put your knowledge and skills into practice, having a real impact on their business.

Entry requirements

2:1 (or international equivalent) in accounting, auditing, financial management, or another subject with a substantial proportion of accounting study.

Applicants must have a strong accounting background and in their final two years of study have achieved a 2:1 (60%) in a minimum of four modules covering advanced or specialist accounting theory.

Tuition fees	
UK: £13,000	International: £30,000

MSc Banking and Finance

This course will help to enhance your career opportunities in the fast-paced world of multinational banking and finance. It will give you specialist skills, combined with advanced level business management techniques.

Core modules will help develop an advanced understanding of essential areas, while optional modules allow you to tailor your degree to your specific interests and career goals.

You will be able to understand and analyse financial institutions, markets, consumer demands and competition. You will also explore the latest concepts in banking, policy, economics and risk management.

As this course is accredited by the Chartered Banker Institute (CBI), you will have valuable networking opportunities with leading industry experts, and attract the attention of top multinational employers.

Entry requirements

2:1 (or international equivalent) in finance, economics, accounting, business, or management. Outstanding degrees in any quantitative discipline also considered on a case by case basis.

Applicants must have a strong quantitative/mathematics background and in their final two years of study have achieved a 2:1 (60%) in a minimum of two modules covering at least two of the following subjects: mathematics, statistics, quantitative methods, quantitative finance specialisms, and econometrics. 2:1 (or international equivalent) in finance, economics, accounting, business, or management.

Outstanding degrees in any quantitative discipline also considered on a case by case basis. Applicants must have a strong quantitative/mathematics background and in

their final two years of study have achieved a 2:1 (60%) in a minimum of two modules covering at least two of the following subjects: mathematics, statistics, quantitative methods, quantitative finance specialisms, and econometrics.

Tuition fees	
UK: £13,000	International: £30,000

Financial innovation

MSc Banking and Finance is delivered by staff from our Global Centre for Banking and Financial Innovation. They work with industry and advise on government policy decisions. The centre is inclusive and collaborative – you will have access to its resources and international research.

 nottingham.ac.uk/business/businesscentres/gcbfi

MSc Finance and Investment

Ranked in the top 55 of the Global Masters in Finance 2020, this course will help to enhance your career opportunities. You will appeal to employers as a skilled professional in investment banking or financial management.

Through real-time access to our Bloomberg Terminals, you will learn to utilise data to analyse financial instruments that will underpin your investment decisions. You will also gain a broad understanding of the sector through modules covering corporate finance, capital market analysis and financial security valuation.

This course is recognised by the Chartered Financial Analysts Institute's university recognition programme. This status is granted to select institutions that have incorporated at least 70% of the CFA Programme Candidate Body of Knowledge into their degree programmes.

As an affiliated university, we are closely connected to professional practice and an advanced finance and investment degree from Nottingham will help to bring your CV to the attention of top multi-national employers.

Entry requirements

2:1 (international equivalent) in finance, economics, business studies, accounting or financial engineering/mathematics. Outstanding degrees in any quantitative discipline (for example, natural sciences, computer science) also considered on a case by case basis.

Applicants must have a strong quantitative/mathematics background and in their final two years of study have achieved a 2:1 (60%) in a minimum of two modules covering at least two of the following subjects: mathematics, statistics, quantitative methods, quantitative finance specialisms, and econometrics.

Tuition fees	
UK: £13,000	International: £30,000

You'll develop an understanding of how to analyse and interpret big data to inform your strategic decision making, and you will gain in-depth knowledge of marketing, accounting, innovation and strategic planning. You'll also learn how to be an effective leader with a grasp of the key concepts of organisational behaviour and people management.

With your awareness of the role international business has to play in the global economy, this MSc will enhance your for prestigious employers who are looking for the skillset you will have. As an asset to their organisation you can put your knowledge and skills into practice, having a real impact on their business.

Entry requirements
2:1 (or international equivalent) in any discipline, excluding business and/or management.

Tuition fees	
UK: £13,000	International: £25,000

MSc Management

This course will give you a complete set of essential management skills and will also develop you as a strategic leader with the potential to excel in global management positions.

You will analyse theoretical perspectives of management and leadership by exploring real case studies. With the potential to work anywhere in the world, this MSc can help you to begin a successful career with excellent earning potential in industry, commerce or the public sector.

This MSc will enhance your CV for prestigious employers who are looking for the skillset you will have. As an asset to their organisation you can put your knowledge and skills into practice, having a real impact on their business.

As the course is accredited by the CMI (Chartered Management Institute), you'll receive a Level 7 diploma in Strategic Management and Leadership upon successful completion, which will bring you closer to achieving full Chartered Manager status.

Entry requirements

2:1 (or international equivalent) in any discipline, excluding business and/or management.

Tuition fees	
UK: £13,000	International: £25,000

MSc Risk Management

Risk management is key to an organisation's sustainability. It allows a business to plan for situations ranging from global pandemics to volatile marketplaces, and to put solutions in place that enable them to continue to thrive.

Our programme will give you a complete set of essential management skills and will also develop your potential to excel in global risk management positions. You will be able to directly contribute to the success of organisations in sectors as diverse as healthcare, aviation, law, energy, engineering and insurance.

On our MSc you'll explore topics such as analysing and modelling risk, risk governance in different sectors and quantitative risk management. It is recognised by the Chartered Insurance Institute, the world's leading professional body for insurance and financial services. In addition, graduates automatically become affiliate members of the Institute of Risk Management.

Studying this course will enhance your CV for prestigious employers who are looking for the skillset you will have.

Entry requirements

Tuition fees	
UK: £13,000	International: £25,000

→ Full course details
nottingham.ac.uk/pgstudy

Entrepreneurship and innovation

MSc Entrepreneurship, Innovation and Management

This course will help you to harness your creativity and make your entrepreneurship goals a reality. It is ideal if you want to start your own enterprise, enter the family business or become a consultant who can work innovatively in a corporate setting.

You will explore topics including launching new ventures, marketing and e-business. You can also study venture capital and private equity, through a practical module that uses real life case studies and guest speakers with vast experience as venture capitalists.

The entrepreneurship project in semester two enables you to work to a brief and deliver a consultancy style report and presentation for the project sponsor – typically a founder of an entrepreneurial SME.

You will also be eligible for membership of the Ingenuity Lab, providing access to a wide range of roundtables and seminars hosted by our Entrepreneurs in Residence, who also provide mentoring if you choose to undertake a summer business plan instead of a traditional dissertation.

Entry requirements

2:1 (or international equivalent) in any discipline.

Tuition fees	
UK: £13,000	International: £25,000

The Haydn Green Institute for Innovation and Entrepreneurship

HGI is our centre for enterprise and entrepreneurial skills development, innovation and understanding the commercialisation of research. Nottingham is one of four University Enterprise Zones in England, working with businesses to increase local growth and innovation.

 nottingham.ac.uk/enterprise

Cross-subject courses

A series of cross-disciplinary entrepreneurship courses are available across the University, administered by other schools and departments in conjunction with the Business School.

These programmes offer an exceptional opportunity to develop the business and entrepreneurship skills that employers are looking for. This includes the ability to develop opportunities, bring innovation to an organisation and work creatively, while developing the specialist knowledge from your core discipline.

- MSc Communication and Entrepreneurship
- MSc Cultural Industries and Entrepreneurship
- MSc Sustainable Energy and Entrepreneurship

→ Full course details
nottingham.ac.uk/pgstudy

Operations management

Any of these closely related operations management courses will suit you if you have qualitative and quantitative skills and want to pursue a career in operations management.

They explore the decisions made to tackle management problems in business, industry and the public sector. They look at the methods, models and techniques that are used to resolve organisational difficulties.

These courses integrate management techniques with the technologies they control. They will equip you with the analytical skills to understand the complexity of operational management challenges in business as well as fostering your creative thinking to generate potential solutions.

Depending on your chosen course, you will undertake modules in management science for decision support, managing contemporary operations, and supply chain planning and management in semester one. During semester two, you will be able to develop in-depth knowledge and skills in your chosen course and will be able to choose from a variety of options in order to focus on your career aspirations.

- MSc Industrial Engineering and Operations Management
- MSc Information Systems and Operations Management
- MSc Logistics and Supply Chain Management
- MSc Supply Chain and Operations Management

Entry requirements
2:1 (or international equivalent) in a business, engineering or science-related discipline.

Tuition fees	
UK: £13,000	International: £25,000

→ **Full course details**
nottingham.ac.uk/pgstudy

Marketing

MSc Marketing
This course gives you all the key skills and knowledge you need to excel in high-level marketing positions. There are countless marketing agencies and in-house corporate marketing teams across the world, so you will have far-reaching career opportunities.

The skills you will learn can be applied across all businesses, so your ambitions don't have to be limited to a particular sector. Our core modules cover all the essential elements required by professional marketers. You can select optional modules that reflect your personal career goals and interests, enabling you to gain specialist knowledge of areas including branding, product development and B2B marketing.

As our course is accredited by the Chartered Institute of Marketing (CIM), it is mapped against their assessments of the industry's needs. You can complete the CIM Diploma in Professional Marketing alongside your MSc studies at no extra cost, which means that you'll graduate with two internationally recognised professional qualifications.

Entry requirements
2:1 (or international equivalent) in any discipline, excluding degrees with a substantial amount of marketing.

Tuition fees	
UK: £13,000	International: £30,000

MSc International Tourism Management and Marketing
Tourism is an enduring industry that offers numerous worldwide career opportunities. Our course will give you a complete set of essential business and marketing skills, with the potential to excel in global tourism management positions.

You will gain an in-depth understanding of fundamental principles such as international business strategy, sustainable tourism management and business economics. Through our optional modules, you can then specialise in areas that align with your individual career prospects, including branding, digital marketing, corporate strategy and human resource management.

Through the company-based project or dissertation you'll complete in the summer, you will demonstrate the practical application of your skills and knowledge through independent research relating to international tourism management and marketing.

Entry requirements
2:1 (or international equivalent) in any discipline, including business and management.

Tuition fees	
UK: £13,000	International: £25,000

“This course has taken me on an amazing developmental journey. I have developed the fundamental theories, tools and techniques underlying marketing practice. Studying at a top-ranked university has made me push myself to limits that I never thought I could reach.”

Dung Đoàn, Vietnam
MSc Marketing

MSc Business Analytics

This course is taught in collaboration with multinational companies and will give you the essential skillset they are looking for. It has been developed by the Neodemographic Laboratory for Analytics in Business (N-LAB).

You will benefit from the engagement of N-Lab’s multi-national partners, who include Ipsos, World Bank, Walgreens Boots Alliance and IBM Research. In addition to guest lectures, coursework will be based on real-world datasets and your dissertation will use transactional data from a real company.

Our course will help you to become a business orientated data scientist with a technical skillset, the ability to harness big data tools and the managerial skills to deliver practical business analytics projects. It will prepare you for senior management positions within the broad scope of the digital economy.

Entry requirements

2:1 (or international equivalent) in any discipline; applicants should not have previously studied a significant amount of business analytics, but must have a 2:1 (or international equivalent) in quantitative modules at degree level with a significant amount of mathematical/statistical content.

Tuition fees	
UK: £13,000	International: £30,000

N-LAB

Our analytics course is delivered by N-LAB, a centre of excellence for international business analytics. N-LAB provides state-of-the-art research, data visualisation and teaching facilities. Its teaching focuses on real-world problems, reflecting the lab’s research momentum.

While studying with N-LAB, you will become an extended part of our research family, which includes an expert team of staff and PhD students.

In line with global partner companies, N-LAB is designing from the ground up. This is to meet the ever-increasing demand for graduates with in-depth analytics knowledge and management skills – both in theory and practice.

 nottingham.ac.uk/n-lab

MBA programmes

Whether you are looking to progress in your career or widen your professional network, our top-ranking AMBA-accredited qualifications can help you realise your potential.

By working and studying with fellow MBA students from all over the world, you will develop an international outlook on business, discover your own leadership style and open up new career opportunities.

MBA

Our MBA will build on your management skills and experience, and will help to expand your global career prospects and earning potential. It will enhance your CV and attract prestigious employers who are looking for the skillset you will have.

You’ll study core modules covering essential areas of management including leadership, marketing, operations management and entrepreneurship. You will also choose from optional modules that enable you to specialise in areas that align with your own individual career goals. These cover topics including venture capital, ethics, corporate finance and change management.

You will take part in an interpersonal skills programme, and your learning will be enhanced through group work with talented peers from different professional and cultural backgrounds. You’ll also be able to put your skills into practice when you engage with business on projects with leading multinational companies or small and medium enterprises (SMEs).

“ Learning is a life-long journey and I’ve had an amazing year. Professors provided us with knowledge and an enjoyable learning experience. Doing group work with students from diverse backgrounds helped me learn how to cooperate with people with different mind-sets and personalities. Now, our cohort seems like a family and I really love them! ”

Jiang WU, China
MBA

Executive MBA

Our Executive MBA allows you to balance your current work and life commitments while developing your skills, applying high-level business management education to your current role with flexible study options.

Our Executive Healthcare MBA is designed to prepare you for the challenges of organising and managing complex healthcare services.

Applicants require a 2:1 (or international equivalent) in any discipline; relevant professional qualifications may also be considered. In addition, you should have at least five years of management work experience.

→ MBA programmes
nottingham.ac.uk/business/mba

Funding and scholarships

There are different ways to fund your postgraduate degree – from subject, regional or country scholarships to bursaries and government loans.

International students

The University offers a wide range of scholarships for international students. When planning your studies and funding, you should consider your living expenses, such as accommodation, food, travel and leisure, plus tuition fees.

You can work part-time for some extra spending money, but cannot fund your studies through part-time work. If you need a Tier 4 student visa, you will need to show funds for your tuition fees and living expenses – based on £1,015 per month for a single student in 2020.

 nottingham.ac.uk/international

EU students

The UK government has confirmed that EU, other EEA and Swiss nationals starting courses in the 2021/22 academic year will no longer be eligible for home/UK fee status or financial support from Student Finance England.

→ **Find funding**
nottingham.ac.uk/pgstudy/funding

How to apply

Once you've found the right course for you, you're ready to apply.

These steps will take you through the application process.

Before you apply

1. Check entry requirements

Academic requirements vary by course. International and EU students can find alternative qualifications on our country webpages at nottingham.ac.uk/go/yourcountry

English not your first language?

You also need to meet the relevant English language requirements. If you need support, you can take one of our preessional English courses.

2. Check key dates and deadlines

Places are limited and courses may become full so we encourage you to apply as early as possible. Any application deadlines are listed on our website.

Applying

3. Submit your application

You can apply directly through our online system. You will receive an automatic confirmation once you submit your application and can track its progress.

There is an application fee of £40 for MSc courses.

After you apply

4. Track your application

You can log in at any time to track the progress of your application.

When we have made a decision on your application, we will send you an email and let you know what you need to do next.

Accommodation

We guarantee all new students University-arranged, single-occupancy accommodation for one year. To qualify, you must accept a place on one of our MSc courses and apply for accommodation by the date specified on our website.
