Careers in Science Fair

Tuesday 27 October 2015, 11.30am–2.30pm
Engineering and Science Learning Centre, University Park
Welcome to our Careers in Science Fair

It’s great to see you at this year’s Careers in Science Fair.

With a range of companies from various sectors attending, you can find out just how far your science degree can take you – from further study, research and development to technology or finance – discover what doors are open to you. Many of the employers visiting us today have graduate jobs and internship opportunities in a number of business areas. You may be surprised by the range on offer.

Here are some key points to make the most of the fair:

• A number of employers are bringing Nottingham graduates to the fair. They will happily have a chat with you and give you an idea of what it’s like to work in the sector.

• Be open-minded! Through your studies you will be developing the attributes sought by employers such as problem-solving, logical thinking and the ability to analyse and interpret data. Speak to a range of employers from different sectors to understand the scope of careers open to you.

• Visit our stand and find out how to make the most of your time at university and grab some information on upcoming events.

Our team are here to help you understand and make the most of the graduate jobs market, not just today, but throughout your time at university and once you’ve graduated. Make sure you leave with a copy of our events guide so that you can see what's happening this term.

And finally, keep in touch. You can book an appointment to see us at www.nottingham.ac.uk/careers/appointments

You can also ask our experts a question on Facebook or Twitter. If you have a burning question, it’s a great way to get a quick answer.

We hope you enjoy the day!

**Application deadline:** 31 December 2015  
**Employment start date:** September 2016  
**Number of opportunities:** 250  

Since starting out in 1846 we’ve been on quite a journey. We’ve evolved from our traditional telecoms roots into a global communications company. Our technology connects 68,000 traders through the New York Stock Exchange, linking trading floors in over 60 countries as one virtual trading organisation.

But amazing projects don’t just happen by themselves. It takes the passion, drive and ambition of our workforce to help us get there. It’s about the right people for the job. Working on challenging projects, with ongoing training, and an amazing graduate community.

**Application method:** Online  
**Application deadline:** 14 November 2015  
**Employment start date:** September 2016  
**Number of opportunities:** Seven  

We are a world-leading organisation and a prestigious funder of science. Our vision is to bring forward the day when all cancers are cured. In the 1970s, less than a quarter of people with cancer survived. But over the last 40 years, the survival rate has doubled. Our ambition is to see three-quarters of people surviving the disease within the next 20 years. At Cancer Research UK, our progress is your progress. Our culture is about passion, ambition and ground-breaking work. If you’re smart, brave, engaging and optimistic, we’re sure we’ll be right for you.

As one of the world’s largest consumer goods companies, P&G has one of the strongest portfolios of trusted, global leading brands of any company in the world.

P&G recruits the finest people in the world, because they develop talent almost exclusively from within. This means graduates won’t just get their first job out of university; they are being hired into a career, with the expectation that they will grow into one of P&G’s future leaders; maybe even the next CEO. New starters with P&G can expect a job with responsibility from day one and a career with a variety of challenging roles that develop and broaden their skills, together with the support of training and coaching to help them.
