Search Careers Fair Plus
It’s great to see you at this year’s Tech Careers in Small Businesses Fair. With a range of companies from the information technology sector joining us today, you can find out how to have a big career in a small company.

Many of the companies at the fair offer graduate jobs and internship opportunities across business areas.

Use the chance to find out about careers that interest you – including those you may not have considered before. It’s great to stay open-minded.

Through your studies, you will be developing skills which are highly sought after by employers, including problem solving, logical thinking and the ability to analyse and interpret data.

Our team are here to help you reflect on your skills and make the most of the graduate jobs market, not just today, but throughout your time at university and after you graduate.

You can book an appointment to see us at nottingham.ac.uk/careers/appointments

You can also talk to our experts on Facebook or Twitter. If you have a burning question, it’s a great way to get a quick answer.

We hope you enjoy the day!

Our consultancy practice is devoted to assisting our reputable, blue-chip clients to overcome their planning, consolidation, budgeting and forecasting challenges and unlock the capability of their data.

Building good relationships with our customers means a lot to us, so communication is just as important as technical skills. Applicants must be able to adapt to both technical and businesspeople.

Training and supervision will be provided, however candidates must also be comfortable working on their own and be willing to travel to different customer sites.
