

Example CV Farm veterinary

Use your personal profile to demonstrate your enthusiasm for the specialism you are applying to. Tailor your profile to the role and the practice to show the employer how you will fit within their team.

At this stage there is no need for you to include your GCSEs or A levels on your CV. Do include both degrees and the 'University Of Nottingham' in this section. You can also include your research project title.

Some vet students choose to include a skills profile in their CV. This can be of interest to employers if you believe your specific numbers will help you to stand out against other candidates. However, employers have told us that new graduate vets tend to have similar numbers so the description of what they have done on placement rather than approximate numbers can be more meaningful.

For some roles, particularly as a farm or equine vet, a driving licence might be either required or at least very useful. Otherwise it is generally not essential.

Personal Profile

Throughout my time at Nottingham I have developed a passion for farm animal veterinary practice and have a particular interest in herd health and preventative strategies, which I have actively developed through my role as President of the Farm Animal society. I have strong communication skills and am comfortable working with farming clients through experience developed during EMS and from my own farming background. I'm keen to develop my knowledge and skills in order to benefit the UK farming industry in what is currently a very difficult environment.

Education

2016-present	School of Veterinary Medicine and Science, University of Nottingham BVMBVS – expected completion July 2021 BVMedSci – 1st class (2019) Research project investigated the expression of toll-like receptors 1,6 and 9, tumour necrosis factor-alpha and -defensin 1 in ovine biopsies from healthy, inter digital dermatitis and footrot skin-hoof interfaces
2013-2016	School of Biosciences, University of Nottingham BSc (Hons) Agriculture, 2:1

Skills Profile

- 300 blood samples (mainly tail vein)
- 150 manual PD's
- 100 disbudding/dehornings
- 100 castrations (mainly surgical, some burdizzo)
- 20 post-mortem examinations (various species)

Surgery –

- Assisted with 7 caesareans (cattle and sheep), 4 x LDA surgery (left flank, bilateral flank, toggle), caecal dilatation surgery, prolapsed uterus, and 2 twisted uterus
- Varying degrees of involvement with herd health programs, including constructing a complex vaccination protocol for an agricultural college dairy herd and sole responsibility for FEC's as part of flock health plans

Rotation Professionalism Assessments

- 'Exceeds expectations' for 'communication skills', 'professional interaction with clients and colleagues' and 'punctuality'

Driving licence: Full clean licence since July 2012

Professional Experience

November 2019	Peterson and Smith Veterinary Surgeons (XLVets), Huddersfield – 2 weeks Dairy focused. Manual PD's, routine herd health visits, poor performance investigations. Helped with calvings and surgery.
April 2019 & July 2019	Manor Farm Veterinary Practice, Oxford - 4 weeks in total Dairy and beef routine fertility visits, PD practice and Interherd work for dairy clients. Sheep flock investigations; sole responsibility for FEC tests and reporting. On call.
November 2018	Brigghouse Veterinary Group, Burton on Trent - 2 weeks Routine fertility visits with my own screen for staging pregnancies. Blood sampling for BVD (over 200 cows), disbudding, emergency slaughters.

You do not need to include all of your EMS placements. Choose the most recent and relevant to the role you are applying for, these are likely to be your clinical placements not your animal husbandry as you get nearer to graduation. Employers know you have done the minimum placements in all specialisms in order to graduate.

Detailing your employment history can give a future employer an understanding of your skills and experience in customer service, problem solving and communication skills.

- January 2018 **Willow Vet Group, Staffordshire** - 2 weeks, mixed practice
Heavily involved in herd health analysis, compiled a vaccination protocol for a complex herd. Small animal consultations and diagnostics.
- July 2017 **Happy Horse Equine Veterinary Clinic, Lancaster** - 2 weeks, equine practice
Ambulatory and hospital work. Vaccinations and lameness work-ups, castrations, imaging and medical cases (mainly colics and dermatology).
- July 2017 **Doveridge Veterinary Centre, Ashbourne** - 1 week, mixed practice
Routine fertility visits and TB testing, sick cow cases. Small animal surgery, consultations and nursing care. On call and overnight duties.
- April 2017 **Westpoint Veterinary Group (XLVets), Cambridge** - 1 week, mixed practice
90% farm-based. Very busy and strong clinical focus. Helping with calvings, lambings, caesareans (sheep and cattle) and clinical cases. Involved in on-site cases and treatments including lameness and TRP. On call.

Employment History

- 2017-present **Student Ambassador – University of Nottingham**
Welcoming prospective students and their parents, giving campus tours and answering questions about the course and life on campus
- 2013-2016 **Bar Staff – Wetherspoons, Nottingham**
Busy bar role in Nottingham City Centre, utilised strong communication skills and interpersonal skills to provide good customer service
- 2011-2013 **Waiting staff – Toby Carvery, Middleham**
Demonstrated strong customer service skills, and an ability to respond to customer complaints in a calm and efficient manner

Positions of Responsibility

- President of Nottingham Farm Animal Veterinary Society (NFAVS) 2018/19**
A student-led society which runs extra teaching, trips, and workshops for students who are interested in farm animal practice.
- Treasurer for SB Agrics society 2015/2016**
Managed a budget for the society to ensure all activities could take place. Responsible for requesting additional grants to host a specific event debating the impact of badger culling on bovine TB.

Interests

Music

I play the cello to grade 6 standard and enjoy playing with the University’s orchestra. I’m also teaching myself to play the guitar in my spare time.

Sport

I’m an active member of the University’s basketball team, playing in various tournaments including the Nottingham Varsity. I also play in the local league team outside of the University when my commitments allow.
