Personal statement:

A first year medical student seeking part-time weekend work during term time. Interest in health and social care of the older generation.

Education:

2020-2025: The University of Nottingham

BMBS Medicine

2018-2020: South Shields Comprehensive sixth form college

3 A Levels AAA including Chemistry and Maths

2013-2018: Jarrow School

11 GCSEs A* - B including Maths, English and ICT

Skills profile:

Teamwork:

- Worked in group of 3 to produce medical presentation on heart disease: Ensured deadlines set and adhered to: Scheduled weekly catch up meetings: undertook own research in collaboration with others
- Worked with lab partner in practical classes to investigate excitable tissues, ensured work split equally between us and took it in turns to clean up equipment after practical classes
- Weekly football sessions with Halls team; book the pitches, worked alongside captain to organise summer competition. Motivated team before each match and succeeded in winning the cup.

Communication:

- Successfully passed the Clinical Communication Skills module which teaches range of communication skills including talking to young people, explanation skills and communicating with people whose first language is not English
- Write the Twitter and Facebook posts for Derby Hall, also contribute to a student life blog on the BMA careers website

Numeracy:

- Measuring and recording changes in tissues during practical classes means a high level of numeracy and accuracy is needed
- Help with Hall's football club accounts, ensuring spend and income are level
- Manage a student budget

IT skills:

- Competent in all Office programmes, can create formulas in Excel and mail merges in Word
- Recently started to learn Python code
- Competent with social media and Google analytics
