

Leverhulme Public Lecture
**Brain, emotion and decision making: Learning
from regret and envy**

Thursday 5 May 5-6pm
A48 Sir Clive Granger Building, University Park
University of Nottingham

**Lecture by Professor Giorgio Coricelli, Leverhulme Trust Visiting
Professor, University of Nottingham and Professor of Economics and
Psychology, University of Southern California (CA, USA)**

This talk is suitable for everyone and introduces the academic field of neuroeconomics. By looking at the brain, emotion and decision-making it will shine a new lens on decision-making. The lecture focuses primarily on studies of the neural basis of human behaviour including the reward system, reinforcement learning, social preferences and strategic choice.

Everybody Welcome

Presented by the Centre for Decision Research &
Experimental Economics
