Subject: CRIBS workshop 24th June

The Centre for Research in Behavioural Science (CRIBS) will be holding a workshop on 24th June. The keynote speaker will be Sanjit Dharami (Leicester) who will be speaking on “Psychological and Social Motivations in Microfinance Contracts: Theory and Evidence” Sanjit has recently published a book with Cass Sunstein.

All are welcome to attend but please inform us so we can arrange catering, etc.

We would like to invite speakers to present papers. We would particularly encourage presentations from research students and recent hires. Early stage drafts can be submitted for feedback.

If you are interested in presenting and/or attending please contact us:
