Coming up in this issue:

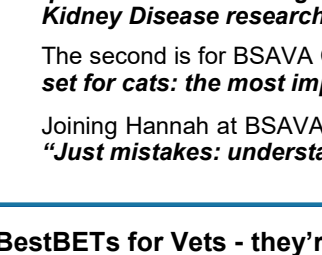

- Up-to-date news from the team: graduations, conference presentations and abstract submissions
Latest BestBETs
Recent Publications
Spotlight
BSAVA 2020

Good News:

Congratulations: Louise Corah passed her PhD viva in 2019 and just before Christmas, we were all super proud to see Louise graduate. We're sure Louise will go on to do great things - fortunately for all of us here at the CEVM, Louise isn't going far! Louise has taken a part-time teaching associate position within the vet school focusing on postgraduate veterinary education. Louise will continue to be part of the CEVM team and will be spending her spare time training her Labrador puppy, Gully

Brush with royalty: Katie Lightfoot attended the World Horse Welfare annual conference and gave her presentation on changing human behavior to improve equine welfare to attending delegates which included HRH Princess Anne. Well done Katie!

Recent CEVM presentations:

Freya Rooke presented her abstract 'Knowledge and understanding of Quality Improvement methods within UK veterinary practices' in the clinical research stream of BEVA conference 2019

Katie Lightfoot also attended BEVA 2019 and presented her abstract titled 'The use of human behavior theories to assess horse owner intention to adopt emergency recommendations.'

Abstracts Submissions:

Hannah Doit has been very busy recently and has not one but TWO abstracts accepted for the 2020 conference season. One is for the Society for Epidemiology and Preventive Medicine (SVEPM) Annual Conference in Ireland in March entitled: 'Use of quantitative and qualitative methodologies to identify a Core Outcome Set (COS) for Feline Chronic Kidney Disease research.'

The second is for BSAVA Congress in Birmingham in April entitled: 'The first core outcome set for cats: the most important parameters to assess in feline CKD treatment.'

Joining Hannah at BSAVA will be Julie Gibson who has also had her abstract accepted titled 'Just mistakes: understanding mistake handling the UK veterinary profession'

BestBETs for Vets - they're back!

After an unavoidable hiatus in publishing our BestBETs for Vets are back, you can find our most recent BETs on our free online database here. You can find out more, subscribe to BET updates or submit a question, but here are our most recent BETs:

- Meloxicam versus carprofen in canine osteoarthritis http://bestbetsforvets.org/bet/234
Midline versus flank approach and wound complications in neutering of cats—new evidence added http://bestbetsforvets.org/bet/558

Spotlight on our Research:

In this issue we meet one of our PhD Students, Julie Gibson and she tells us a bit about her project.

I graduated from the RVC in 2005 and have enjoyed a career as a practicing vet until starting a PhD at Nottingham in 2019 entitled 'Developing a just culture in the veterinary profession'. Although just culture is increasingly coined within safety and managerial research, there is a real need to put it into context if it is going to be introduced into the veterinary profession effectively! With recent veterinary patient safety research and a drive for quality improvement, there is no better time to do this. I am currently asking stakeholders, including vets, nurses, clients and insurers, their views on what happens in the face of adversity; in other words, what happens and what should happen when a mistake is made or there is a suboptimal outcome?

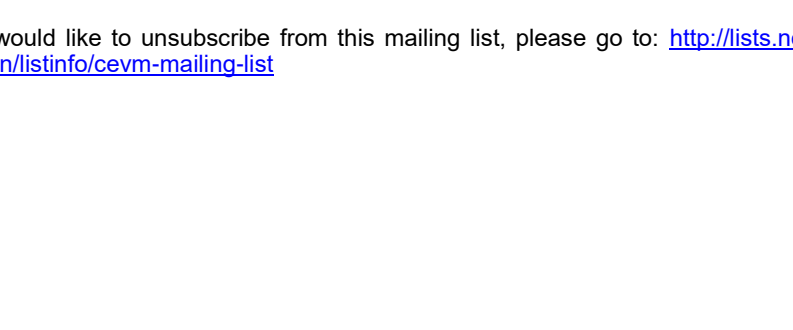

The data is collected in the form of audio recordings, which I then transcribe and analyze, in order to ultimately form a model of what a veterinary just culture encompasses. If you are interested in finding out more about developing a just culture find me on twitter @thejustvet

BSAVA Congress 2020:

Registration for British Small Animal Veterinary Association's 2020 congress is now open! This year it is being held at the International Conference Centre located in Birmingham, over three days (2-5th of May). An exciting programme of over 450 hours of lectures and practical session from international experts has been put together and it promises to be an insightful and exciting conference, that you definitely don't want to miss!

To Find out more information or register for the congress now please go to: https://www.bsavaevents.com/bsavacongress2020/en/page/home

And Finally:
