“ONLY WHEN SEPARATED BY TIME AND SPACE CAN WE TRULY SEE THE PATTERNS THAT EMERGE WITHIN THE SYSTEM.”

Margaret Wheatley
FROM WITHIN THE LIGHT EMERGES

- Deeply connected to the vision and purpose underpinning the WLE.

- Depth of character, as evidence by the range of diverse membership, demonstrates both a personal and professional commitment to the ethos of this organization.

- Though the makeup of the organization and its level of activity may fluctuate, the amplification of your collective voice remains present.

- The fluid and dynamic nature of the collective bond which brings together members from vast geographic and cultural distances, has found a way to remain stable despite potential factors that may periodically limited its growth.

THE BEGINNING

“…These outstanding human beings, who had come together from the soil of every continent, sat together in unified voices to agree upon goals that can impact the cause of gender equity in educational leadership and touch the lives of our sons, daughters and generations beyond. We asked ourselves what we could do to give back to the world, sharing information and wisdom to all within our reach – in person and in virtual environments. We set goals for ourselves that implicitly carried the will to ‘be friends on the other side’, the other side of the work that we began.”

(Excerpted from the Epilogue, Sharing the Spirit, Fanning the Flame)
“YOUR WORDS STILL MATTER. THEY CREATE A NEVER ENDING TAPESTRY OF KNOWLEDGE AND DAZZLING GRACE THAT TRANSCEND TIME AND SPACE.”

DR. HELEN SOBEHART
