

Report for the usage of the MAS-DNP facility of the University of Nottingham

The report should briefly address the three main points:

1. Brief description of the goal/aim of your research.
2. Results obtained in our facility (Do not include confidential data).
3. How will this be useful for your further research and grant application?

- A. Introduction/Aim of your research
- B. Results
- C. Further Research/Grant Application.
- D. References

Please understand that this is a rough guideline and you can modify it if you want, but address the three points mentioned here. Please keep the report brief (1-2 pages).
