Pizza and drinks provided for free!

Use the QR code to get to our
Moodle page and register for an
upcoming event

Or search the Autism Social Network on
Moodle to enroll

The aim of the Autism Social Network is to promote a sense of community amongst autistic students and to create a fun environment for students to share their experiences of University life.

We host a monthly Board Game evening where we get together, play some board games and eat some pizza. The aim of these events is to allow students with autism to meet new people, share experiences and have fun!
