Faculty of Engineering Research Excellence PhD Scholarship 2017

For overseas students

The faculty conducts research in a wide range of areas in engineering science and applications, ranging from advanced composite materials and 3D printing, to energy technologies and biochemical engineering.

Visit www.nottingham.ac.uk/engineering/research to find out more about the exciting areas in which our research groups specialise, the opportunities for research within the faculty and to help you identify potential PhD supervisors. We particularly welcome applicants with interests related to Aerospace, Energy and Advanced Manufacturing.

Scholarship funding

- Twelve full tuition fee scholarships including stipends worth £1,015 per month
- Financial support for up to a maximum of three years

The high value of this award reflects the University's aim to attract the best students from around the world and to support them during their study.

Conditions for the award

- Candidates should normally have a first class degree or MSc with distinction (or international equivalent), work experience, journal papers published and other esteem indicators (prizes, top in class etc.) will be considered
- Applicants must hold a conditional or unconditional offer of a place on a full-time research degree programme at The University of Nottingham UK Campus before submitting a scholarship application
- Applicants must be classified as an international student for fees purposes
- Scholarships awarded must be taken up between 1 October 2017 and 1 February 2018 (inclusive)
- Continuation of the award is subject to satisfactory progress

Applications

The closing date for applications is 10 March 2017. For more information and to apply, please visit
