

Didier Leibovici

Geocomputational Data Analytics & GIS

Nottingham Geospatial Institute,
University of Nottingham, UK

What is your key interest in the workshop?

research (crop modelling & spatial analysis
& e-infrastructure), end-users needs

AgriGIS Workshop and Think Tank meetings, Nairobi, Kenya

Organisation Background

- **Nottingham Geospatial Institute:**
 - Spatial Data Infrastructures / OGC web services / Geospatial Information modelling / Big Data
 - EO /geospatial engineering/ geoinformatics
 - Precision Positioning /GNSS / Navigation

Applications: Global food security, Environmental Monitoring, Integrated transport, Hazards and mitigation

Your current work/research

- Data quality / uncertainty / error propagation & quality assurance
- Workflow research environment for SDI
- Multiple domains interaction for Spatial analysis & outbreak detection

Contact info.

Dr Didier G. Leibovici

Senior Research Fellow

Nottingham Geospatial Institute
