

Name: Meshack Emakunat Oriama

Background: Agribusiness

Key interest: ICT integration into agriculture and agribusiness management

Background:

MESHACK ORIAMA is an Agribusiness Expert at Agri Hub International, as the companies Agribusiness Business development Manager. He studied agriculture and agribusiness from Egerton University Njoro and Graduated with a Bachelors of Agribusiness Management in the year 2013, prior to joining campus he practiced agriculture in his parents farm land in Nakuru and Malaba through planting of various crops which where sold locally to local markets in Nakuru and also for for domestic consumption. He has helped rear 1500 birds both broilers and layers in Nakuru through a company called Luma Poultry in Nakuru which involved brooding birds for clients till they reached 3 month old then handing them to the clients after ascertaining that the housing is proper for the transfer. He later joined New KCC Nakuru as an intern where he learned greatly on operations involved within the organization and the contemporary large organizations since he arrived when New KCC was transitioning from old manual operations to ERP supported operations. In early 2014 he joined Weston Hotel Ltd briefly for one year then went back to agriculture sector by joining Sameer Agriculture and Livestock Ltd as a Sales accounts assistant. He later joined Agri Hub International as the Agribusiness Business Development Manager where he currently oversees the operations of the Company through reaching out to farmers and presenting solutions to there farming problems by developing models that best fit the farmers challenges and that of the Agri Hub International team.

- I am interested in advocating for ICT4Agriculture and development in my country. I believe that through ICT integration into agriculture and agribusiness management we are able to achieve efficiency in the farm level and also in marketing.
- ***WHO IS AGRI HUB INTERNATIONAL***
- We are an Agricultural company based in Kenya, with specialisation in Agricultural consultancy services and financial advisory services. our team works with international partners to equip agricultural producers and related business with the knowledge and connections networks they need to maximise production and increase profitability
