

Charles Nichols

CTO & Co-Founder
SunCulture Kenya Limited

Leveraging ag data to geographically
target farmers best suited for to solar-
powered irrigation technology

AgriGIS Workshop and Think Tank meetings, Nairobi, Kenya

Organisation Background

- SunCulture designs, manufactures, finances and distributes solar-powered irrigation systems and services that make it simpler and cheaper for farmers in Africa to grow high quality fresh fruits and vegetables
- The company's AgroSolar Irrigation Kit™ replaces expensive fuel pumps with a more efficient solar powered solution.

Your current work/research

- Technology development/R&D of solar-powered irrigation systems
