**AgriGIS Workshop and Think Tank meetings, Nairobi, Kenya**

# Organisation Background

Africa 2.0 is a pan-African civil society organisation providing a platform for emerging and established African leaders to drive forward the transformation of Africa. Founded in 2010 around the belief that with a unifying vision and a focused “coalition of the willing”, Africans can accelerate the development of their continent

# Your current work/research

- I currently work at providing analytics and research for different entrepreneurs within the organization.
- The analytics that I provide for the entrepreneurs is a data based approach for their different businesses depending on the different stages of their business. E.g. Market related data analytics on products for startups and growth stage businesses.
