# Technical requirements for PebblePad

*If you are using a computer supplied by your employer you may need to contact your IT support service to check that your system is set up to meet these requirements . If you are using a personal computer or device then all of the software referred to in the guide is available to download free of charge from the links provided.*

PebblePad runs on Windows, Mac, Linux, iOS, Android and any device with a modern web browser.
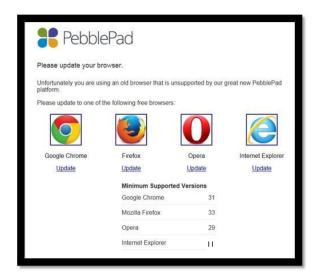

## These are the minimum browsers we support:

- Google Chrome 31
- Mozilla Firefox 33
- Internet Explorer 11
- Opera 29
- Safari 7

We highly recommend updating to the newest version of the browser you are using.

## Updating your Browser

If you log in using an unsupported browser you will usually be presented with this screen which links you directly to the update pages for the browsers PebblePad supports.

You can also download the latest version of your browser via the links below, click the name of your browser to visit the browser's download page:

- [Google Chrome](#)
- [Mozilla Firefox](#)
- [Internet Explorer](#)
- [Opera](#)
- [Safari](#)

## Required Browser Components

**Cookies**

Cookies need to be enabled on your browser to use PebblePad. This will help us to remember your settings, which will make your next visit to PebblePad easier and the site more useful to you. To learn more about managing cookies in your browser select the name of your browser from the list below:

- Google Chrome
- Mozilla Firefox
- Internet Explorer
- Opera
- Safari

**Pop-Ups**

If your browser has a pop-up blocker that is preventing you from using certain PebblePad tools, you can either disable the popup blocker completely or configure it so that it allows pages from PebblePad to open.

To enable pop-ups in PebblePad, check the following instructions for your preferred browser:

- Google Chrome
- Mozilla Firefox
- Internet Explorer
- Opera
- Safari

## PebblePad on Mobile

PebblePad is optimised to be accessed on almost any mobile device providing that the operating system of the device is supported. It has a responsive and adaptive design which will work well on any PebblePad supported browser.

These are the minimum mobile operating systems it supports:

- iOS 7.1
- Android 4.2.2
- Blackberry OS 10
- Windows 7 (for tablets and hybrid devices only)

## Java updates

It is important that the software called Java is updated on the computer on which you are accessing PebblePad otherwise the pages may not load. For more information and to download the latest version of Java go to the Java website
