

Developing Clinical Academic Careers

A range of opportunities to undertake fully funded clinical research, research training and professional development whilst maintaining clinical practice and salary.

Internships

Internships offer an introduction to all aspects of clinical research, from trial design and data management through to experiencing primary research in a clinical environment.

Masters in Clinical Research Studentships

Masters Studentships enable clinicians with a demonstrable interest in research to undertake a clinical research project of their own design whilst attending taught modules pertaining to clinical research theory, process and techniques.

Clinical Doctoral Research Fellowships

Clinical Doctoral Research Fellowships enable graduate clinicians with some research experience and aspirations for a clinical academic career to obtain a PhD whilst broadening their professional horizons and developing their clinical skills.

Clinical Lectureships

Clinical Lectureships enable early post-doctoral clinicians to combine independent research in an academic position with continued clinical practice and professional development.

Senior Clinical Lectureships

Senior Clinical Lectureships enable practicing clinicians with independent clinical research experience to undertake further research in a senior academic position whilst developing as a clinical academic leader.

Eligible individuals are welcome to apply to any of the above schemes, irrespective of previous award history. For full eligibility and further details visit www.nihr.ac.uk/hee-ica
