

## Typical Teaching Timetable

This timetable is based on the first-year timetable for the Biology-Chemistry-Maths Stream.

	9-10	10-11	11-12	12-1	1-2	2-3	3-4	4-5	5-6
Mon	Lecture	Lecture	Tutorial	Study Group					
Tues		Tutorial	Lecture						
Wed	Laboratory Class								
Thurs	Lecture		ATSP Workshop	Lecture				Lecture	Workshop
Fri	Lecture	Laboratory Class				Lecture	Lecture	Lecture	Lecture

- The number of contact hours in a typical week ranges from 18-25 hours depending on the subjects studied.
- Subjects with less contact time involve more independent study so having fewer hours of contact time does not mean there will be less work to do.

Description: Typical Timetable for first year - Monday - four hours 9-1 with a mixture of lectures, tutorials and study groups: Tuesday - two hours 10-12 a tutorial followed by a lecture: Wednesday - 9-1 Lab class all morning: Thursday - a full day with some gaps, lecture 9-10, workshop 11-1 followed by a lecture at 12, lecture and workshop back-to-back 4-6: Friday - a full day, lecture at 9 followed by a lab class at 10-1, lectures at 2,3,4 and 5.
