

Fire Awareness;

Transcript - What would you do on hearing the fire alarm?

(Jo working on a laptop.)

(ALARM SOUNDING)

(Jo looks up with a confused expression on hearing the alarm, but decides to ignore it and returns to working on her computer. A few moments pass with alarm still ringing – Jo looks up, again.)

(Clock appears on the screen and starts to tick.)

Jo

(Murmurs to herself)

I wish someone would stop that flamin' alarm!

(Jo returns to work on the laptop and continues to type.)

(Clock is enlarged on the screen and is still ticking as the words displayed read "Every second counts if there is a fire, don't delay! If the alarm sounds get out as quickly as possible.")
