

## Year 13 A level Mathematics Student Survey Consent Form

As a Year 13 A level Mathematics student, you have been asked to complete a survey to share your feelings about your mathematics learning.

### What am I consenting to?

I give permission for the University of Nottingham to collect, store and use the data that I provide as part of the Observatory for Mathematical Education's A Level Mathematics Study:

- ✓ I have read the information and understand the nature and purpose of the research.
- ✓ I understand that my data will be shared with the team of researchers in the Observatory for Mathematical Education at the University of Nottingham.
- ✓ I agree that my school/college can securely share my name, date of birth and Unique Pupil Number with the Observatory for Mathematical Education so they can link my survey answers to government data about me for anonymous analysis.
- ✓ I understand that I may withdraw from the research project at any time and all data about me will be deleted, although my data may still appear, anonymously, in publications or reports that were already in progress or already published at the time of my withdrawal.
- ✓ I understand that while information from the study will be published, me and my school/college will not be identified and my personal data will remain confidential.
- ✓ I understand that my survey answers will be stored securely and not shared with my parents/guardians, school/college or other students.
- ✓ I understand that I should contact the University of Nottingham [mathsobservatory@nottingham.ac.uk](mailto:mathsobservatory@nottingham.ac.uk) if I require further information or wish to withdraw from the research. I understand that I should contact [educationresearchethics@nottingham.ac.uk](mailto:educationresearchethics@nottingham.ac.uk) if I have a complaint about my involvement in the research.
- ✓ I agree to take part in this research.
