A city with a pioneering spirit

The city of Nottingham is a great place to work and study. Home to the world-class University of Nottingham, it is a culturally diverse and thriving city with a strong sense of community.

Both Jubilee and University Park Campus are close to the centre of Nottingham, which is the commercial and cultural capital of the East Midlands. It is home to several major UK employers, including Walgreens Boots Alliance, Experian, Capital One, E.ON and the Inland Revenue.

Many large blue-chip companies and prominent organisations have offices in and around the city and the Business School has strong links with many of them, including Rolls-Royce, based nearby in Derby. The city’s Creative Quarter is a thriving hub of entrepreneurial business that has catalysed Nottingham’s growth.

Music lovers can take their pick from the world-famous Rock City, Motorpoint Arena or one of the smaller gig venues for a more intimate live show. If you enjoy shopping, there are independent boutiques and vintage shops as well as high street names in our large shopping centres. The city is also a hotspot for dining, with a mix of chain and independent cafes, restaurants and delis on offer. It also offers world-class sports facilities such as Trent Bridge cricket ground and the National Water Sports Centre.

Nottingham is an old city with a rich history – you can explore the ancient caves beneath your feet, or take a relaxing walk through Wollaton Park and visit its imposing Elizabethan Hall. Nottinghamshire’s more well-known attractions include Robin Hood’s Sherwood Forest and the historic Goose Fair, held every October.

Unlock your potential

We can help equip you with the skills needed to secure senior positions in industry, commerce, and the public sector, while providing a solid foundation for PhD research.

Innovative courses
The Business School offers a large selection of MSc courses. Our academic staff are leading researchers in their fields and our teaching is underpinned by their distinctive research. We offer a unique international experience with opportunities to establish valuable business relationships with global peers.

Globally connected
At Nottingham, you will develop an international outlook. We pride ourselves on international diversity in the classroom and currently have students from almost 50 countries across our MSc courses, which ensures you will learn from different perspectives. If you study part of MSc International Business at the University’s campuses in China or Malaysia you can gain international experience that employers value. MSc Business and Management students also have the opportunity to study at the University’s Malaysia Campus.

Research-led teaching
In the latest Research Excellence Framework, the Business School ranked 6th in the UK for research power. You will be taught in small, diverse classes by academic and industry experts. The Centre for Risk, Banking and Financial Services is a leading centre for teaching and research in financial services, risk, and insurance – its staff teach MSc Banking and Finance. The Haydn Green Institute for Innovation and Entrepreneurship (HGI) is the University’s centre of excellence in the development of enterprise and entrepreneurial skills, and sits among Europe’s leading centres in the field. MSc Entrepreneurship, Innovation and Management is HGI’s flagship course, offering you the opportunity to develop your entrepreneurial skills no matter what your background is.

Inspirational location
Praised for its innovative architecture and environmentally friendly technology, Jubilee Campus was first opened in 1999 by Her Majesty the Queen. Built on a former industrial site close to Nottingham city centre, the campus has impeccable green credentials and is a leader in sustainable development. University Park Campus is just a mile away and you can easily get there on one of our free Hopper buses. Jubilee Campus covers 65 acres and includes the YANG Fujia Building, home to the Office for Global Engagement, a sports centre, the Ametianes Building, with a restaurant and multi-faith centre, and a scheme designed by Ken Shuttleworth (architect for the iconic Swiss Re building in London) that includes Innovation Park, the Aerospace Technology Centre, Energy Technologies Building, and the UK’s tallest freestanding work of public art, Aspire.

World-class facilities
Facilities on Jubilee Campus include a Business School library and Student Service Centre, study rooms, computer labs, restaurants, cafés, Students’ Union shop, the Centre for English Language Education, and financial and business data systems – Bloomberg, Datastream, Bankscope, and Financial Times.

A support network built around you
We offer a network of services such as academic support, funding advice, and health and counselling services. Find out more at nottingham.ac.uk/studentservices The University offers a range of additional support services for international students. For more information, visit nottingham.ac.uk/international
The Business School presented me with the incredible opportunity to pursue my MSc course by offering me a full scholarship. Studying without having to worry about my tuition was not only life-changing but also very inspiring and motivating. Without financial help I would not have had the opportunity to study at a top UK business school.

Elitsa Nacheva, from Bulgaria, MSc Management Consultant, Financial Services, Accenture

Connect with business

We offer a variety of ways for you to meet and network with business representatives, gain practical experience, and put business theory into practice.

Business experience

The Business School works closely with a range of placement schemes, community engagement initiatives and organisations to maximise your opportunities to gain experience and exposure to business practice.

We have partnered with the UK Department for International Trade on their Postgraduates for International Business initiative. This connects local businesses with students who can offer language skills and in-country knowledge to support overseas market entry and development.

The University’s Graduate School offers short, part-time placements with local businesses that fit around your studies. Unitemps is the University’s student recruitment agency offering part-time work opportunities. Eligible students can apply for casual and part-time roles both on and off campus.

Dissertation projects

It may be possible to focus your dissertation research on a particular issue or challenge faced by a business. Support is available to explore this option and help you identify and source appropriate projects.

Volunteering

Our postgraduate volunteering programme, Cheese Matters, involves our students working with local businesses to deliver financial education to secondary school students. You will have the opportunity to train and deliver sessions alongside company representatives to raise financial awareness among young people. There are a variety of volunteering opportunities that will be open to you through the Business School, the University’s community engagement programmes and the Students’ Union.

Why study with us?
Accelerate your career

Through a combination of your academic studies and the careers support we offer, you will be in an excellent position to make your next career move.

Your career, your way

Our in-house Postgraduate Careers Team provides expert advice and guidance so that you can make an informed decision about the right career path for you. As soon as you have accepted your offer, we can begin working with you to support your career planning needs. You can take part in pre-course careers discussions and take advantage of remote and online support through Career Leader, an online assessment tool which helps you to measure your business interests and motivations before starting your course.

During your course, you will benefit from:

- our Accelerated Career Leaders Programme which is an integral part of our MSc courses
- skill development sessions delivered by experienced professionals
- exclusive careers events, networking opportunities and a variety of work experience options such as short-term projects and part-time work
- one-to-one expert guidance with career planning, applications, selection processes and professional skills
- access to online resources and alumni networks to ensure you have information on working in a variety of countries
- vacancy alerts to keep you up to date with the latest job opportunities
- psychometric assessments to increase your self-awareness and provide an insight into the tests used in recruitment processes
- talks from legal experts to support international students’ understanding of the latest regulations on working in the UK

Our support doesn’t end there. As an alumnus we will stay in touch with you to track your career progression and you will still be able to access many of our services.

86% of MSc graduates from Nottingham University Business School secured work, self-employment or further study within six months of graduation*

Recent graduates have developed careers in a wide range of areas such as management consultancy, investment banking, financial services, public relations, operations management, corporate responsibility, sustainability and marketing. Self-employment and further study are also popular choices.

Funding your studies

Nottingham University Business School has a significant amount of scholarship funding available for MSc students starting their course in 2019.

Our scholarships are awarded on the basis of academic merit and vary between 20–100% of the total tuition fee.

Academic and sporting excellence
If you have attained or are expected to attain a very high grade in your undergraduate degree, you will be considered for the Business School Dean's Scholarship for Excellence and, if successful, will be awarded either a 75% or 100% scholarship. In addition, we offer scholarships for those wishing to study an MSc who have shown sporting excellence.

You will automatically be considered at the point of offer and there is no separate application process. However you must submit your MSc application by Wednesday 31 July 2019 to be considered for one of these scholarships. Find out more at nottingham.ac.uk/business/msc/scholarships

Alumni scholarships
UK, EU and international alumni automatically qualify for a scholarship award. This will be a contribution towards the MSc tuition fee and will be awarded shortly after any offer is made to study with us.

International scholarships
The University offers a wide range of international scholarships, which are specific to countries or regions. For more information, visit nottingham.ac.uk/go/masters-scholarships

Guidance for international students
For guidance on living costs in the UK, managing your budget, how to open a UK bank account, and information for sponsored students, please visit nottingham.ac.uk/go/international-finance

Accredited courses

Many of our MSc courses are accredited by professional bodies. This offers you opportunities to gain additional qualifications as well as your postgraduate degree.

MSc Finance and Investment has been accepted into the Chartered Financial Analyst Institute

MSc Banking and Finance holds Chartered Banker Institute Centre of Excellence accreditation – the gold standard for banking professionals

MSc Human Resource Management and Organisation is accredited by the Chartered Institute of Personnel and Development, offering you exemption from their advanced diploma

MSc Marketing is accredited by the Chartered Institute of Marketing – you will receive a degree and a professional qualification, which can give you a competitive edge

MSc Risk Management is recognised by the Chartered Insurance Institute – the world's leading professional body for insurance and financial services
This specialist course is designed to further your existing knowledge of accounting and finance by building on the theory and application of accounting principles. It will suit you if you studied a business-related subject as an undergraduate and want to focus on financial accounting as a distinct career path. Engaging with current debates in the field, you will have the opportunity to enrich and broaden your understanding and appreciation of important topics within accounting and finance while engaging in current debates in the field.

You will take five core modules across two semesters as well as a summer dissertation. Optional modules allow you to tailor your degree to suit your interests and career aspirations.

"This course provides you with systematic financial knowledge and improves your logical thinking and ability. Although it was difficult for me at the beginning, with the help of classmates and professors, I made it! Through this process, I also learnt how to relieve pressure when I felt tired. I think this kind of ability is not only beneficial for my study, but also for my future career."

Fanyue Li from China, MSc Banking and Finance

The Business School is a world leader in banking education and our research has been awarded Centre of Excellence status by the Chartered Banker Institute. This course aims to bring you the latest knowledge about banking, financial markets and risk in the financial sector. You will be joined by leading industry experts who will share their experiences of the financial world.

This course is ideal for those wanting to pursue a career in the financial markets department of an international bank before moving into a high-level managerial position. It will enable you to develop skills in the analysis of financial institutions and instruments, markets, consumer demands and competition. You will develop a conceptual and theoretical grounding in current concepts and techniques in banking, policy, economics and risk management and associated areas. You will also be introduced to a range of empirical techniques enabling you to analyse industrial dynamics, the impact of innovation on performance, and the impact of regulation and policy interventions on banking and finance in corporations. The modules you will take consider international aspects of banking and finance and you will be able to analyse a country of your choice in your dissertation.

"I have developed my critical thinking and problem-solving skills in business and management related scenarios. During my course, I had the opportunity to be a part of the Nottingham Consulting Challenge which gave me experiential insights into project management. Modules also boosted my confidence to pursue challenging business needs."

Karen Amisah from Ghana, MSc Business and Management

On this course, you will learn from one of the largest groups of finance experts in the UK, bringing you some of the most up to date knowledge and techniques in their fields. It will provide you with a solid foundation in modern finance and investment and prepare you for a career in investment banking, financial management or further postgraduate study in a related subject.

You will study a variety of modules across two semesters as well as a summer dissertation. The taught component consists of five core modules plus two options from a wide range of modules including topics in corporate finance, capital markets, and financial security valuation. You will also develop a thorough grounding in research methods for finance and have the opportunity to study behavioural finance. This course has a distinct quantitative focus and includes both theoretical concepts as well as their applications. You will benefit from real-time access to our Bloomberg Terminal and you will learn to utilise data to analyse financial instruments and help make effective decisions.

Business and management

Our portfolio of courses caters for a variety of graduates from different backgrounds. If you have student management at undergraduate level, you can further develop your skills through MSc Business and Management. If you have little or no previous experience of management or human resource management, MSc International Business, MSc Management, or MSc Human Resource Management and Organisation could be the right choice for you.

These courses offer you the opportunity to learn from experts in a range of subjects including organisational behaviour, human resource management, strategy, economics, marketing, entrepreneurship, accounting and finance.

MSc Business and Management

On this course, management is brought to life as a vibrant and important area of business expertise in modern organisations.

Our teaching is practically focused and grounded in the latest ideas and principles in management science. We work with prominent organisations and industry to ensure that teaching remains relevant to employers.

This course is flexible and provides you with the scope to tailor it to your needs and career interests – developing any relevant experience that you already have in business and management. It provides a theoretically grounded coverage of key conceptual and practical developments across a wide range of business and management disciplines.

You will cover such areas as corporate financial strategy, managerial economics and managing people and organisations, along with behavioural and human resource aspects of management. This course is designed to nurture the development of key skills in business and management through small group projects and a research-led dissertation. Recent graduates have entered careers in major UK and international business and management consultancies.

"I have developed my critical thinking and problem-solving skills in business and management related scenarios. During my course, I had the opportunity to be a part of the Nottingham Consulting Challenge which gave me experiential insights into project management. Modules also boosted my confidence to pursue challenging business needs."

nottingham.ac.uk/pgstudy
Teaching includes lectures, case studies, seminars and other in-progress start-ups. One of my significant achievements at the University was obtaining a Tier 1 Graduate Entrepreneur visa. This has encouraged me to develop my career as an entrepreneur.

Are your entrepreneurial skills sufficiently well developed to create your own new venture or to add value to an existing business?

Led by The Haydn Green Institute for Innovation and Entrepreneurship (HGI), our entrepreneurship courses will help you develop an innovative and entrepreneurial approach and give your thinking a creative edge.

This course is designed for those interested in working entrepreneurially, whether that is in your own business, a family business, an SME, a large multinational, or as business consultant or analyst.

The HGI's programme showcases our approach to entrepreneurship and innovation education that blends theory with practice. Throughout the year, you will engage with passionate academics, entrepreneurs and other practitioners who will guide your learning journey. Initially, you will take part in our Ingenuity process in the Entrepreneurial Creativity module. Later on, you will deploy your new knowledge through a live consultancy project, which culminates in pitching your ideas about new opportunities for a growing local business.

This entrepreneurship project is frequently cited as the highlight of the course. Throughout the year, you will cover core subjects in modules such as Launching New Ventures, Entrepreneurship in Context, and Leading Entrepreneurial Growth. The summer semester is an opportunity to develop your own business plan, or to undertake a dissertation on an entrepreneurship topic.

As a member of HGI, you will join an active entrepreneurially focused and other practitioners who will guide your learning through our programmes. As a member of HGI, you will join an active entrepreneurially focused and other practitioners who will guide your learning through our programmes.

Marketing

MSc Marketing

This course will develop your understanding of key areas in consumer behaviour and consumption, marketing management, strategy, analytics and critical marketing.

You will be able to tailor your studies by choosing from a wide array of marketing modules and will undertake a dedicated module in research methods for marketing.

This course is accredited by the Chartered Institute of Marketing (CIM), which is the leading professional body for marketers worldwide. We offer students the opportunity to complete the CIM Diploma in Professional Marketing alongside their MSc at no extra cost. This means that you will graduate with two internationally recognised professional qualifications.

Our teaching is practically focused and grounded in the latest ideas and principles in marketing practice. We work with prominent organisations and industry to ensure that teaching remains relevant to employers.

After graduating, you can choose to continue your studies with the CIM and, with appropriate experience in a marketing-related role, gain full member status and become a Chartered Marketer.

CIM Gateway

MSc International Tourism Management and Marketing

This course will provide you with a solid grounding in international business, along with knowledge of management and marketing specific to the tourism industry.

You do not need to have prior knowledge in these areas, as the course will cover the theories, concepts and techniques of tourism and international business.

This course will enable you to develop an appreciation of the forces affecting global markets and consumer behaviour in tourism management and marketing, along with an understanding of key challenges facing the industry, including sustainability. You will also develop key cognitive, problem-solving, research and group working skills.

Analytics

MSc Business Analytics

Do you want to learn how to turn data into business insights at a state-of-the-art teaching facility led by international experts? Are you interested in discovering analytics using real-world datasets, developing both your career and consultancy skills?

This cutting-edge MSc course has been developed by N-LAB in collaboration with multinational business in order to provide the exact skillset that they are looking for.

As well as learning to harness big data tools, data science techniques and manage analytics projects, you will benefit from significant industry engagement.

N-LAB’s partners span the world, and currently include:

- Tesco
- Walgreens Boots Alliance
- IBM Research
- World Bank
- Tigo Mobile
- NHS
- Dunhumbry
- Ipsos

In addition to guest lectures, coursework will be based on real-world datasets, providing hands-on practical experience in the techniques businesses are looking for, as well as required skills in managing practical business analytics projects.

Please note, due to the extensive use of lab sessions this course is limited to 30 students and so early application is advised.

Operations management

Any of these closely related operations management courses will suit you if you have qualitative and quantitative skills and want to pursue a career in operations management.

They explore the decisions made to tackle management problems in business, industry and the public sector. They look at the methods, models and techniques that are used to resolve organisational difficulties.

These courses integrate management techniques with the technologies they control. They will equip you with the analytical skills to understand the complexity of operational management challenges in business as well as fostering your creative thinking to generate potential solutions.

Depending on your chosen course, you will undertake modules in management science for decision support, managing contemporary operations, and supply chain planning and management in semester one. During semester two, you will be able to develop in-depth knowledge and skills in your chosen course and will be able to choose from a variety of options in order to focus on your career aspirations.

MSc Industrial Engineering and Operations Management

MSc Information Systems and Operations Management

MSc Logistics and Supply Chain Management

MSc Supply Chain and Operations Management

“...This course has taken me on an amazing developmental journey and provided me with the fundamental theories, tools and techniques underlying marketing practice. Studying at a top-ranked university has made me push myself to limits that I never thought I would be able to reach.”

Dung Doan from Vietnam, MSc Marketing
On this course, we will help you develop understanding and knowledge of risk analysis, risk and society, corporate risk, quantitative risk management, and the strategic use of insurance in risk management.

You will undertake research methods and a dissertation tailored towards risk management. This course provides you with everything you need to establish your career path to a chief risk officer position in the areas of healthcare, aviation, law, engineering, oil and gas, health and safety, and insurance.

This course is endorsed by the Chartered Insurance Institute, the world’s premier professional body for insurance and financial services. In addition, graduates from this course can subsequently apply for affiliate membership of the Institute of Risk Management.

“Completing my postgraduate course has provided me with a valuable knowledge tool-kit to utilise in my future career. Thanks to the overall experience and the careers team during my time at Nottingham University Business School, I have been able to gain a place on a graduate scheme at a large European defence and space company.”

George Shearing from the UK, MSc Risk Management

Thinking of an MBA?

Whether you are looking to progress in your career or widen your professional network, an AMBA-accredited qualification from Nottingham University Business School can help you realise your potential.

By working and studying with fellow MBA students from all over the world, you will develop an international outlook on business, discover your own leadership style and open up new career opportunities.

Applicants who demonstrate exceptional academic merit and/or experience can benefit from Business School scholarships covering up to 30–100% of tuition fees.

“Learning is a life-long journey and I’ve had an amazing year. Lectures were delivered by sophisticated professors who provided us not only with knowledge but also an enjoyable learning experience. Meeting students from diverse backgrounds made it more fascinating. Doing group work with them helped me learn how to cooperate with people with different mindsets and personalities. Now, our cohort seems like a family and I really love them!”

Jiang Wu from China, MBA

Our Executive MBA is among the top 100 worldwide, according to the QS Global EMBA Ranking 2018. You can balance your current work and life commitments while developing your skills, applying high level business management education to your current role with flexible study options.

As leaders in healthcare and the NHS, the Executive MBA in Healthcare has been appointed by the NHS Leadership Academy. Applicants require a 2:1 (or international equivalent) in any discipline; relevant professional qualifications may also be considered. In addition, you should have at least five years of management work experience.

“You get a real affiliation with the Business School. It’s not just the people that you study with, but the whole alumni network.”

Rachael Lamb from the UK, Executive MBA

Applicants require a 2:1 (or international equivalent) in any discipline; relevant professional qualifications may also be considered. In addition, you should have at least five years of management work experience.
Take a psychological perspective

Are you looking to advance your career in occupational psychology, management, consulting, human resources or research?

With the School of Medicine, you can develop the skills to design and improve the way an organisation selects, develops and manages people.

All three courses give you the opportunity to obtain an additional European Test User qualification in occupational ability and personality testing.

In the summer term, you will undertake an applied research project, which is a piece of real-world research that can be carried out in any part of the world.

MSc Occupational Psychology

Accredited by the British Psychological Society (BPS), this course will develop your knowledge of selection, training, leadership, employee wellbeing and organisational change.

If you have a 2:1 (or international equivalent) in psychology which meets the graduate basis for chartership, this could be the course for you.

You will achieve the first set of requirements for professional practice as an occupational psychologist and gain some experience toward the second set of requirements through workshops and practical exercises. Recent graduates have secured roles in industry, consultancy firms, research and teaching, civil service and prison service, as well as the NHS and Ministry of Defence.

MSc Work and Organisational Psychology

During this course, you will learn how to apply psychology to the workplace to improve the performance of organisations and individuals.

This course could be for you if you have a 2:1 (or international equivalent) in psychology or a related subject, which isn’t accredited by the BPS. The course curricula mirrors MSc Occupational Psychology.

Potential career paths include working for industry in the areas of training, selection, human resources, or careers in consulting, research and academia.

MSc Management Psychology

This course will enable you to design or improve the way an organisation selects, develops and manages people.

An organisation is only as good as its people, and the quality of its people depends on how well they are managed and led. This course focuses on the contribution of applied psychology to our understanding and practice of strategic management and workplace diversity.

If you have a 2:1 (or international equivalent) in a discipline other than psychology, this course could prepare you to apply psychological principles to a practical, organisational context, whether as a line manager, human resources manager or consultant.

Related courses

MSc Environmental Leadership and Management

Led by the School of Geography, this course is designed to develop environmental leaders who are equipped to drive and direct change in organisations, in order to address the profound environmental challenges of our time.

It is ideal if you aspire to be a leader who can generate positive change for the environment. This course’s dual focus on scientific and people skills will prepare you to deliver practical environmental solutions in roles that include sustainability management, environmental consulting, green policy development and environmental entrepreneurship.

You will be able to:

- engage with experienced environmental leaders from industry and commerce
- specialise in a specific area of environmental challenge that aligns with your career aspirations, such as climate risk, water resources, urbanisation or sustainable ecosystems
- gain a Level 5 Certificate from the Institute of Leadership and Management, alongside your MSc

Applicants typically require a 2:1 (or international equivalent) in a relevant discipline. For more information, please contact the Programme Director, Dr Chris Ives, at chris.ives@nottingham.ac.uk

MSc Workplace Health and Wellbeing

This part-time course will help you develop the knowledge to advise organisations on effective ways to improve employee health and wellbeing.

As a distance learning course, it can be studied anywhere in the world. There are also opportunities to study at the University through intensive workshops.

If you are involved in the management of contemporary issues in employee health and wellbeing, or aspiring to be, this could be the course for you. This may, for example, include occupational hygiene, therapy, health and/or safety, nursing and human resources.

Become a leading force for change

There is growing recognition that addressing environmental and sustainability challenges requires a unique combination of fundamental knowledge, practical problem-solving skills and interpersonal competencies.

MSc Environmental Leadership and Management

MSc Work and Organisational Psychology

MSc Management Psychology

MSc Occupational Psychology

MSc Workplace Health and Wellbeing

Take a psychological perspective
Study in China or Malaysia

The University has campuses in China and Malaysia, offering you the opportunity to undertake a postgraduate degree and experience living and studying in a different country.

All courses are taught in English to the same teaching assessment standards as the University of Nottingham in the UK, so you can be assured that your degree will be recognised by employers and universities worldwide.

The business schools on all three campuses are EQUIS accredited by the European Foundation for Management Development. Both campuses are purpose-built, and feature teaching and IT facilities, accommodation, a sports centre and food outlets within easy reach.

How to apply

International students can apply for part-time and full-time courses at our Malaysia Campus, and full-time courses at our China Campus. You must hold a valid visa for the programme you want to study. Applications should be made directly to the campus that you wish to study at.

Qualifications from all our campuses are recognised equally. However, please be aware that courses accredited by external bodies in the UK may not be accredited in the same way at our international campuses.

---

How to apply

We aim to make the application process as simple and efficient as possible.

For detailed information, see our step-by-step guide at nottingham.ac.uk/pgstudy/how-to-apply

**Entry requirements**

Our MSc courses typically require a 2:1 (or international equivalent), plus a personal statement. Applicants who have not yet completed their undergraduate degree may also need to provide a list of modules being studied in their final year. For details of specific subjects, see page 26.

**Meet us**

We make regular visits to national and international agents and universities. To find out more, visit nottingham.ac.uk/business/events

**EU and international applicants**

Our global community is made up of staff and students from more than 150 countries. Staff regularly travel to meet prospective students, hosting events in China, Ghana, India, Indonesia, Malaysia and more. Find out more at nottingham.ac.uk/internationalstudents/meetus

If you need a visa to study, the University can provide all the information and advice you need. Find out more at nottingham.ac.uk/pg/student-visa

For country-specific information including entry requirements, contact details and representatives, see nottingham.ac.uk/pg/yourcountry

A wide range of international scholarships are available for specific countries and regions. Find out more at nottingham.ac.uk/pg/masters-scholarships

**English language requirements**

For applicants whose first language is not English, we require IELTS 6.0 (no less than 6.0 in any element), other than MBA, Executive MBA, and Executive MBA Healthcare, which require IELTS 7.0 (no less than 6.0 in any element). For more information and a list of the alternative English language requirements we accept, see nottingham.ac.uk/pg/alternativerequirements

**Academic English preparation and support**

The University’s Centre for English Language Education provides high-quality preparation and support. It is accredited by the British Council for the teaching of English in the UK. Our presessional courses take your English language and academic skills to the level you need to progress to postgraduate study without taking IELTS or an equivalent exam. Specialist five and ten-week business and management courses are also available. Find out more at nottingham.ac.uk/cele
