

## Tacloban City Housing and Community Development Office:

*Good Practices on Community Development*

# Different Resettlement Sites

## Community-driven Projects

# Best Practices

- DRRM training on disaster preparedness for the 36 barangays affected by Typhoon Haiyan and the rest of the barangays in Tacloban City
- Utilized selected public and private schools as a temporary evacuation centers and the two (2) completed evacuation centers in a strategic areas
- Partnership with INGOs/NGOs in providing basic services such as: rain water harvesting, waste water treatment, school buildings, multi-purpose building (evacuation centers), health center, social preparation and values formation
- Ongoing consultation, focus group discussion, and intensive planning were organized and facilitated by the LGU and National Economic and Development Authority with the national government agencies
- Ongoing consultative and participatory meetings with the families that will be moved or have been moved to Tacloban North relocation areas

# Resettlement Sites Facilities

Tacloban North Public Market

Suhi and GMA Health Center Extension

Ridgeview Park Integrated School

# Livelihood of Relocatees

Public Market

Pop-up Businesses

Sari-Sari Store

# Lack of Water of Supply

- Installation of water tanks in all relocation sites and water delivery by Department of Public Works and Highways
- Department of Public Works and Highways provided the stainless five-ton water tank, hand pump, shallow wells, and water delivery in all the relocation sites
- Philippine Disaster Resilience Foundation did the rain water harvesting and livelihood projects

**UNDP evacuation center in Cabalawan**

# Lack of Water of Supply

- IOM provided deep well and filtration system in 3 relocation sites that can supply 3,000 families
- LGU of Tacloban City provided 2 units of 100 cubic meter capacity water reservoir and delivers water to all local government owned properties

# **Community Development**

- is defined as "a process where community members come together to take collective action and generate solutions to common problems"

# Community Driven Projects

- Recipients are directly involved from urban planning to house design, including canvassing, purchasing, warehousing, and project implementation
- Can be achieved through consistent public consultations, meetings, and public participation

# Livelihood

## Pop-up

- temporary establishment
- Pop-up businesses such as small retail stores, eateries, and others meet the local needs and help start-up businesses
- Train, learn and earn programs, aid fisheries, seaweed culture, agriculture, light industry, and livelihood-assisted projects
