Title of Project : An Attentional Task Using Emotional Faces

Ethics Ref: 1154

Researchers: Xiaolu Guo

Supervisors: Jonathan Stirk

Contact Details: lpxxq1@nottingham.ac.uk

This is an invitation to take part in a research study on how people pay attention to emotional information. Before you decide if you wish to take part, it is important for you to understand why the research is being done and what it will involve. Please take time to read the following information carefully.

If you participate, you will be asked to finish a short computer-based task followed by a short questionnaire. The whole session will take place in person, using a laptop in a quiet room. During the task, you will see a series of images appear on the screen and will need to press a key on the keyboard. After finishing the task, you will need to complete a short questionnaire about how you generally feel in daily life.

The whole procedure will last around 20-30 minutes in total.

Participation in this study is totally voluntary and you are under no obligation to take part. You are free to withdraw at any point before or during the study. All data collected will be kept confidential and used for research purposes only. It will be stored in compliance with the Data Protection Act.

If you have any questions or concerns please don't hesitate to ask now. We can also be contacted after your participation at the above address.

If you have any complaints about the study, please contact:
Stephen Jackson (Chair of Ethics Committee)
