Title of Project: Effect of Athletic Experience and Cognitive Load on Quiet Eye

Performance

Taught project Ethics Number: 1153

Researchers: Sam Branch

Supervisors: Chris Scholes

Contact Details: lpxeb15@nottingham.ac.uk, lpzcs@exmail.nottingham.ac.uk

This is an invitation to take part in a research study on looking into the effects of athletic performance and differing levels of cognitive load on quiet eye performance in a target click task.

Before you decide if you wish to take part, it is important for you to understand why the research is being done and what it will involve. Please take time to read the following information carefully.

If you participate, you will fill out a questionnaire involving general athletic experience, previous gaming experience and an ADHD screening questionnaire followed by sitting in front of a screen with eye tracking equipment to then complete a point and click target task.

The whole procedure will last maximum 30 minutes and will take between 3-5 minutes per trial- there is 4 trials.

Participation in this study is totally voluntary and you are under no obligation to take part. You are free to withdraw at any point before or during the study. All data collected will be kept confidential and used for research purposes only. It will be stored in compliance with the Data Protection Act.

If you have any questions or concerns please don't hesitate to ask now. We can also be contacted after your participation at the above address.

If you have any complaints about the study, please contact:
Stephen Jackson (Chair of Ethics Committee)
stephen.jackson@nottingham.ac.uk
