

## LINGUISTIC VALIDATION CERTIFICATE

### Patient-Oriented Eczema Measure (POEM)

This is to certify that **Mapi Language Services** conducted the linguistic validation of the **paper** version of the **POEM** (source file name: **POEM\_TS3.0\_eng-USori**) into **Polish**.

The aim of linguistic validation is to obtain translations that are:

- conceptually equivalent to the original and comparable across languages;
- culturally relevant to the context of the target country;
- easily understood by the people to whom the translated instrument is administered.

This is achieved using a rigorous methodology<sup>1</sup> involving:

- a process which comprises several steps;
- the instrument's developer input on conceptual issues;
- a skilled team recruited by **Mapi Language Services** in the target country and headed by a consultant with knowledge of and experience in the field of Clinical Outcome Assessments. The consultant supervises and coordinates the linguistic validation process in his/her country;
- a centralized review process coordinated by **Mapi Language Services**, including quality control by linguists and discussions about translation decisions with the consultant at each step of the process.
- cross-cultural harmonisation to ensure common understanding of the instrument's concepts by all participants involved in the process and achieve conceptual equivalence across languages.

**The aforementioned translation (filename : POEM\_TS3.0\_pol-PL, dated 16 Nov 2018) underwent the following steps:**

- Update - by a native speaker to bring existing version in line with an upgraded original version.
- Proofreading step

The existing version on which the linguistic validation work was based had previously undergone the following steps:

- Forward Translation step – 2 forward translations by qualified translators and reconciliation
- Backtranslation step – 1 backtranslation by a qualified translator
- Clinician's Review step
- Cognitive Interview step on 5 patients with eczema
- Proofreading step

**Mapi Language Services** may not be held liable for any changes made on the translation after completion of project **2496-TR-0046** by **Mapi Language Services** on **16 November 2018**.
