

This Course Qualifies for 24 Royal College of Physicians CPD Points

University of Nottingham

The Nottingham Systematic Review Course

Tuesday 18th June – Friday 21st June 2019

The Nottingham Systematic Review Course is aimed at participants who wish to become proficient in developing and undertaking a Cochrane-style systematic review of interventions. As this is an introductory course, no previous knowledge of systematic reviewing is required.

This is a hands-on course with a high focus on practical and computer-based learning delivered through demonstrations, guided practical exercises and facilitated tutorials using Review Manager (RevMan) and Endnote software. Experienced facilitators are on hand to give you practical advice on undertaking publishable systematic reviews.

No prior knowledge is required, though to maximise your learning, we ask you to have considered the topic (PICO) of your own review prior to the course.

Please note that this course does not cover diagnostic or qualitative methods systematic reviews. Please contact us if you need more information on whether this is the right course for you.

What will you learn? - Identify and Clarify your Review Questions, Understand and Develop Search Strategies and Manage the Results of Systematic Searches. You will learn to Extract Data and Assess the Risk of Bias of Included Studies. Participants will learn to Understand and carry out the Syntheses of Data Extracted, Apply the Methodology and Conduct Reviews Independently.

Testimonials

What have previous delegates said about our course?

'One of the best courses I have ever attended. A vast amount of relevant and comprehensive information conveyed in an efficient and digestible way. Outstanding quality of presenters, organisation excellent and professional. All round top course, thank you.'

'I have learnt a great deal. I have a much better understanding of what is involved in a systematic review now.'

'It has been a wonderful experience. I go out of this course significantly different than when I arrived and leave with a lot of will to apply many concepts. Thank you to all in the team!'
