

## Registration of Radiation Workers

To complete your registration with the Safety Office please complete the following to confirm that you have read and understood the University Local Rules relevant to your work. These are published on the Safety Office website via the following links:

- [Local Rules for working with radioactive substances](#)
- [Local Rules for working with X-ray equipment](#)

Once the Safety Office has received the acknowledgement of this the Radiation Protection Supervisor will be notified that the registration has been completed and issued with a dosimeter and/or Isostock Password as appropriate for distribution to the worker.

\*\*\*\*\*

**I acknowledge that I have read and understand the University Local Rules applicable to my work as follows. I also understand that each area has its own local rules and that no one is allowed to enter or work in the area without having read the laboratory local rules obtained from the Radiation Protection Supervisor for that area.**

<b>Local Rules</b>	<b>Sign to confirm</b>
Radioisotopes	
X-Ray Equipment	
Name (Please Print)	
School	
Date	

Please sign and email a scanned copy to the Safety Office:
