Impact: The Nottingham Campaign

AUTISM SOCIAL NETWORK

The aim of the Autism Social Network is to promote a sense of community amongst autistic students and to create a fun environment for students to share their experiences of University life.

We host a monthly Board Game evening where we get together, play some board games and chat. The aim of these events is to allow students with autism to meet new people, share experiences and have fun!

How to join?

Use the QR code to get to our Moodle page and self-enrol or search for Autism Social Network on Moodle
