

Funding for Graduate Entry Medicine (GEM)

New home students starting the GEM course from September 2022

If you require this factsheet in an alternative format please contact Funding and Financial Support on +44 (0)115 823 2071

Or via the **Student Enquiry Centre**: <https://student-enquiries.nottingham.ac.uk>

*The information in this factsheet is applicable to students with 'home' status, who normally live in **England**. If you are usually resident in Northern Ireland, Scotland or Wales, you should approach the appropriate agency in your country for student support rather than NHS Business Authority (NHS BSA) – see Useful Contacts overleaf.*

Year One

The annual tuition fee in 2022/23 will be £9,250. You are responsible for paying the first £3,465 to the University yourself. For the remaining £5,785 eligible students can take out a tuition loan from Student Finance England (SFE). This loan is not means tested.

You may also be eligible to take out a living cost loan of up to £9,706 from SFE. £4,524 of the loan is non means tested; the remainder is means tested on household income. You will receive less if you live with your parents while studying. You can apply online for both loans through SFE at:

gov.uk/studentfinance

Years Two, Three & Four

In the second, third and fourth years the NHS will pay the first £3,715 towards the University tuition fee. For the remaining amount £5,535, you will be able to take out a tuition fee loan from Student Finance England. The tuition fee may be subject to an annual inflationary increase, if allowed by Government, so these figures may change.

In 2021/22 students received a non means tested Grant of £1,000, plus a means tested Bursary from the NHS. The maximum bursary available for a 30 week academic year is £2,643. A further £84 per week is available for any weeks above 30, meaning the maximum Bursary is £4,491*. (A lower rate Bursary is offered if you live with your parents during term time.)

In addition you may be eligible for a non means-tested loan from Student Finance England. This will be £2,534 in 2022/23 (or £1,902 for students living with their parents), and £1,975 for final year students (or £1,443 for students living with their parents). You can apply on-line at: gov.uk/studentfinance

Additional allowances:

Additional allowances or grants may be available for students who have adult and/or child dependants. Refer to SFE for information on this support in Year 1, for Years 2-4 refer to the NHS BSA website – see Useful Contacts.

Disabled Students' Allowances (DSAs) – These are discretionary awards for full and part time Home (UK) students who incur additional costs whilst attending their course, as a result of their disability, dyslexia or long-term medical condition. They are distributed by SFE and the NHS BSA.

International students are not eligible for a DSA however the University will assess their needs on a case by case basis and seek appropriate funding to pay for support.

Additional Help from the University of Nottingham

University of Nottingham Core Bursary (all years)

Home (UK) students liable for £9,250 fees in Year One and with a household income of £35,000 or below may be entitled to a bursary from the University of £1,000. For details of how to ensure you receive this bursary please refer to nottingham.ac.uk/financialsupport Bursaries and Scholarships tab. You must ensure you have been means tested by Student Finance. Payment is made in three instalments in November, January and April/May and is towards your living costs.

Nottingham Potential Bursary (all years)

A Nottingham Potential Bursary provides an additional £1,000 in year one. To be eligible you must meet at least one of the following criteria:

- have children or adult dependants and a residual household income figure of up to £35,000
- you are under 25 and have been in public care for a minimum of three months.

GEM School Scholarships

The University may offer competitive Graduate Entry Medicine Entrance Scholarships. Details of the schemes are available on the Financial Support website – nottingham.ac.uk/financialsupport – under the section 'Bursaries & Scholarships'.

Further Support

GEM students are expected to have made realistic provision at the start of the course to fund both their tuition fees and living costs. However, if you are experiencing financial difficulties the Funding & Financial Support team may be able to help. We offer support and advice to students and can also make referrals to other support services.

Council Tax, Benefits and Universal Credit

Council Tax – Full-time students are exempt from council tax. Students should inform their local council of their student status. Where this leaves one eligible person in a household a 25% discount may be claimed.

Benefits, Tax Credits and Universal Credit

- If you are a lone parent, disabled or part of a student couple with children, you may be entitled to benefits. The Department for Work and Pensions will expect you to apply for all the student support you are entitled to. The student loan and Adult Dependants Grant will be taken into account as income in any benefit calculation.
- Child Tax Credits (CTC)/Universal Credit: if you have children under 16 (or under 18 in certain circumstances) you will still be able to claim CTC for your children, or certain elements of Universal Credit, subject to eligibility. You should inform the Inland Revenue that you are going into full-time education. For more information see gov.uk/universalcredit
