Invite to Online Registration

Dear [Name]

Online Registration is now open for the academic year 2020/21.

Please visit MyNottingham and log in with the IT username that was issued to you following the activation of your IT account and the permanent password that you then set as part of the activation process. Please note that this not the same as your 8 digit applicant username and password used during the application process.

If you studied at the University of Nottingham (excluding the Kaplan University of Nottingham International College) during 2019/20, please log into MyNottingham using the IT username and password issued for your previous course.

If you have forgotten your password, please click HERE and then follow the guidance to reset it by first answering the security questions you set previously.

Once logged into MyNottingham please click the Online Registration icon and follow the onscreen instructions to complete your online registration.

Whilst in MyNottingham, please ensure you add your UK bank account details. This will enable you to receive any payments from the University that you might be eligible for, such as scholarships or bursaries, as well as fully complete your online registration.

The online registration video will also guide you through the registration steps.

I am having problems. What should I do?
