Your day at Natural Sciences
Saturday 22 February 2020

Your registration venue is Physics Building Foyer (building 22 on the University Park map)

11am  Arrival and registration
Please sign in on arrival and help yourself to refreshments.

11:15am  Welcome talk
This will be an introduction to natural sciences at the University of Nottingham. It will include an overview of the structure of the course, what you will study and what a typical week will look like. We’ll also cover information about how you will be taught and supported through your studies. You will hear from one of our current students about their third-year project.

12pm  Buffet lunch
A buffet lunch will be served on the Mezzanine Floor of the Physics Building. Current students will be available to answer questions throughout.

12:45pm  Mini tour of science city
Brief tour of the science area of campus including a visit to the chemistry teaching labs and George Green Library.

1:15pm  Popular science lecture
A mock lecture in one of the subjects available on natural sciences in Physics B1. Today’s talk will be ‘The Colle Gnigetti Ice Core Project - Swiss Alps: economy, disease and climate change from antiquity to present’ delivered by Dr Chris Loveluck.

1:45pm  Discover student life
Enjoy a doughnut and hot drink while you find out more about student life and Nottingham city through a series of student-led presentations and videos.

2:30pm  The Nottingham experience
Discover more about opportunities outside of your studies that you can take advantage of such as study abroad and work placements. Find out more about how you are supported to develop your employability and what careers natural sciences students can go on to do. Finish up with a review of what is next and some information about accommodation and financial support.

3:15pm  Optional tours – accommodation, student life and sports
Visitors are welcome to finish their day at this point but there are some optional tours if you want to visit accommodation, the Portland Building or the David Ross Sports Village.
